WORK EXPERIENCE

Android Developer

JUDO's Solutions

12/2018 - Present

Yangon, Myanmar

JUDO's Solution company has been used cloud-based technology and offer efficient and effective ERP solutions to their clients to boost their business using ICT technology

Achievements/Tasks

- Developed at least 7 applications as I mentioned below
- Retail POS
- Post-Sale POS
- OTS (Online Training System)
- FNB (Food and Beverage)
- DOS (Delivery Ordering System)
- DMS (Distributed Management System)
- WMS (Warehouse Management System)
- By especially focusing on User Experience, Good performance, be smart for our clients to use mobile apps in case that they will satisfy and make feel comfortable. Most of the time, I have been trying to implement recent trends technology or popular design patterns, frameworks, and android libraries in implementation for these applications. Among these applications, I developed mainly focus on Retail POS, Post Sale POS, OTS, FNB and DOS Application that are created by on my own
