## WORK EXPERIENCE

### Fullstack developer Sngular

08/2018 - Present

Projects

- **BBVA Google Cloud Platform Team.** I currently work with the bank GCP Team that gives support and develops internal software. I mainly work in a gamification project for the data analytics department using **Python** and **Javascript** (VueJS). In this project I've faced a **big refactor following SOLID principles and writing unit tests**. I've also worked in other internal projects using **NodeJS**.
- **BBVA Netcash.** I led the team that developed from scratch a new version of the bank app BBVA Netcash using Cells framework over **Polymer web components**.
- **BBVA Avalbox.** I worked in the front-end team developing web components using **Polymer**. Avalbox is a web app that allows to request, present and consult guarantees online.

### Cofounder and game programmer Team Gotham SL

06/2014 - 08/2018

*Indie game development studio based in Madrid. I learned about entrepreneurship, team communication and production.*

Projects:

- **'Solo' - 2018 - gog.com/game/solo**
- **'The guest' - 2016 - gog.com/game/the\_guest**
