

Rethink how you **drive**

About us

EVODS is an **Electric Vehicle On Demand Service** that equips your **property** with a turn-key, exclusive car-sharing service that you can offer as a **luxury amenity to your tenants, guests, and staff.**

Our innovative app allows users to easily browse, reserve, and manage their rentals with just a few clicks, **providing safe, convenient mobility without the hassle of keys, queues, and paperwork.**

Our convenient registration process **includes essential tenant verification steps for added security and trust.** Plus, with our secure payment gateways, transactions are seamless.

We partner with you every step of the way, **from choosing your vehicles to marketing your new amenity,** and we take care of everything from customer service to vehicle maintenance.

So why wait? Unlock the road today with our hassle-free car-sharing service.

Values

At EVODS, our values of ingenuity, excellence, collaboration, and innovation drive us to deliver exceptional electric vehicle services. We focus on providing sustainable mobility solutions and seamless experiences, enhancing the value and appeal of your property.

Ingenuity

Our comprehensive mobile app allows anytime registration, reservation, and rental, putting vehicle access and control entirely in your users' hands.

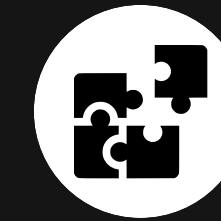

Excellence

EVODS provides installation of EV chargers, private on-site vehicles, insurance, car washes, and maintenance, and handles 100% of customer service.

Collaboration

EVODS works with you to bring additional value and appeal to your property, apartment building, hotel, or workspace.

Innovation

Our full EV fleets demonstrate a shared commitment to more sustainable practices and green initiatives.

EVODS

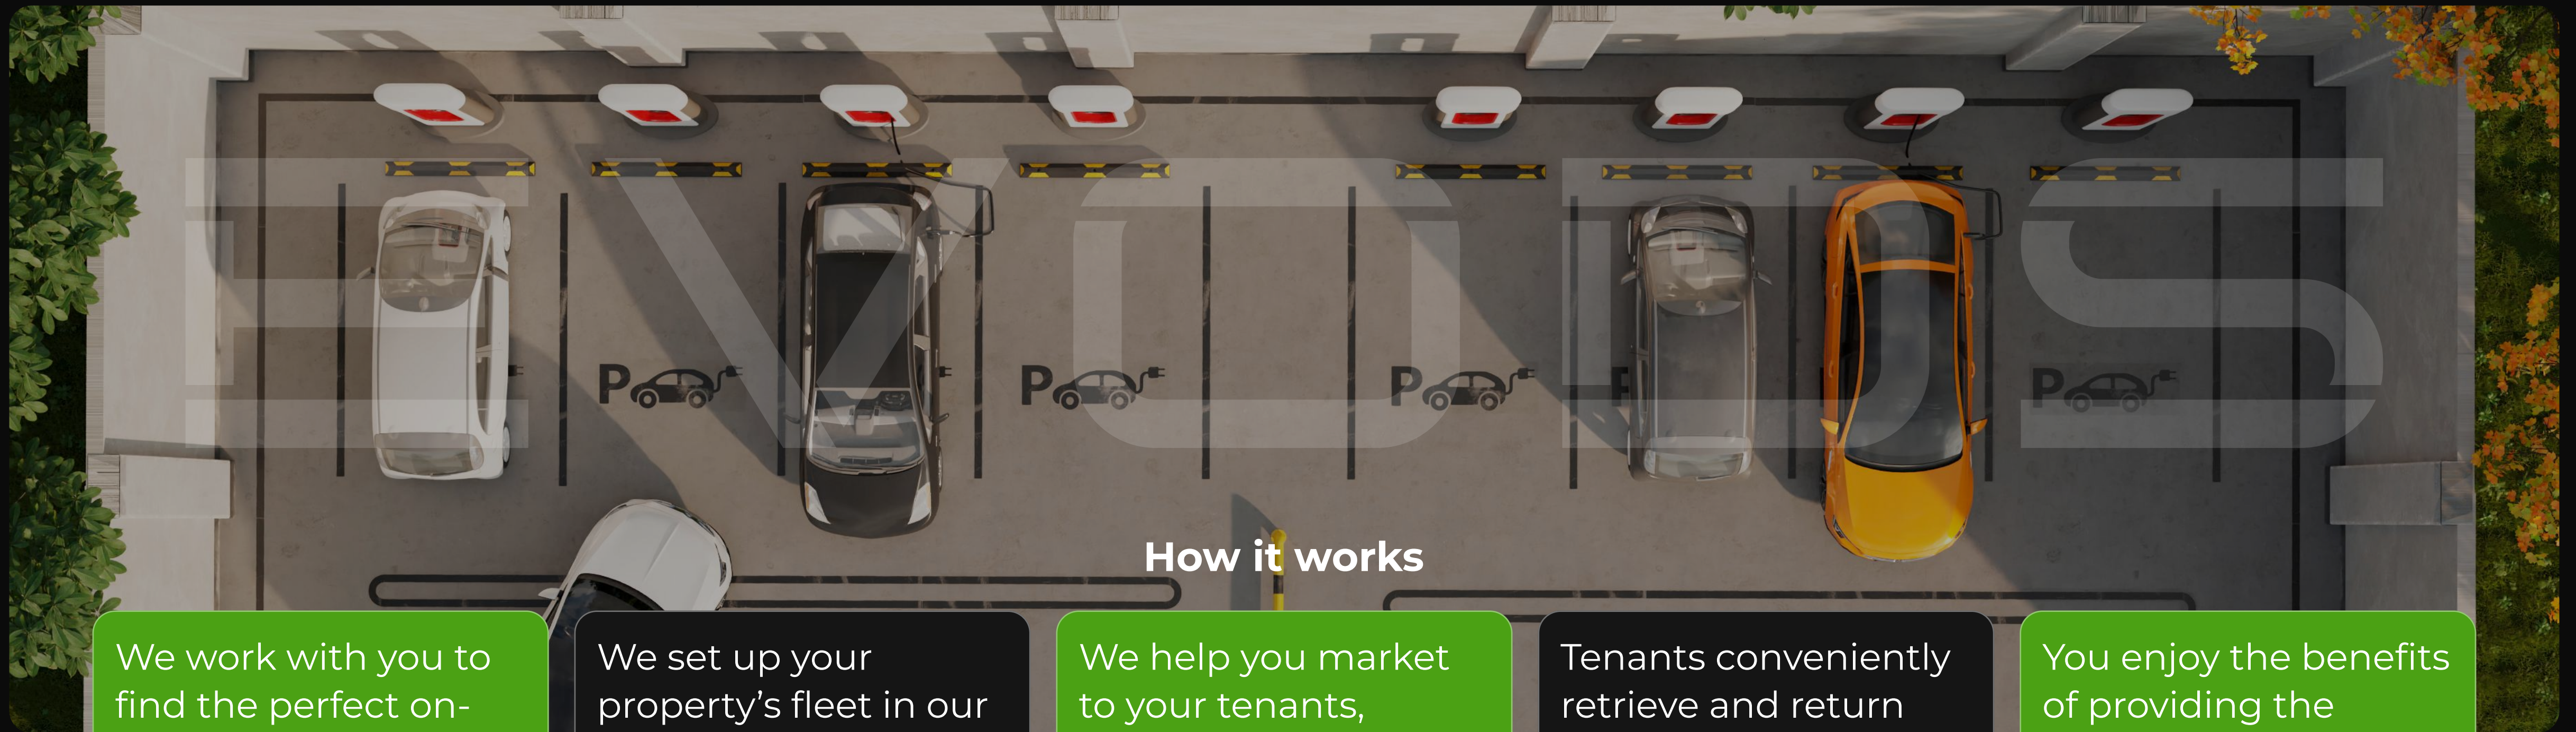

EVODS

- 4. Cleaning**
We provide waterless car washes and sanitization.
- 5. Maintenance**
We organize all vehicle service and regular maintenance.

Connect, rent, ride.

Unlock the road:
Amenities at your fingertips

How it works

We work with you to find the perfect on-property placement for your fleet, install your chargers, and deliver your vehicles.

We set up your property's fleet in our app, including tenant verification steps for smooth, secure registration.

We help you market to your tenants, inviting them to browse available cars in real-time, reserve, and manage their rentals, all within the app.

Tenants conveniently retrieve and return vehicles from your EVODS fleet.

You enjoy the benefits of providing the amenity of mobility to your tenants, while EVODS handles everything from customer service to vehicle maintenance.

The value **EVODS** brings

5
C
O
V
E

Enhance Occupancy: Provide a useful and convenient fleet of on-demand vehicles to cater to your tenants, guests, or staff, making your property more attractive and increasing retention rates.

Valuable Tenant Advantage: Improve the overall living experience by offering a sustainable, luxury amenity that meets modern lifestyle needs and preferences.

Operational Efficiency: Save time and effort for building management with fully in-app car-sharing operations, streamlining vehicle management and reducing administrative burdens.

Differentiation: Stand out as a forward-thinking, sustainable property and attract more tenants by demonstrating a commitment to innovation and environmental responsibility.

Flexible Solutions: Provide solutions for both planned and last-minute transportation needs, ensuring your tenants, guests, and staff always have access to reliable mobility options.

Attract guests with EVODS

Provide social value to your property & tenants alike

Property owners

Acquisition & Retention: Mobility is an amenity that tenants increasingly want.

Economy: Low-cost amenity.

Exclusivity: Residents only.

Ecology: Strives for sustainability.

Benefit: Development incentives - parking reductions.

Tenants

Affordability: Sharing is less expensive than owning a car.

Flexibility: Book for minutes or days via the app.

Convenience: Access vehicles on-site.

Growth: Be a part of the future.

Environment: Lower carbon footprint.

Premiere selections
