M2 - D230	230 cm	33 + 33 cm	3	355 kg	34 hp	235 cm	130 cm
M2 - K250	250 cm	35 + 35 cm	3	400 kg	41 hp	255 cm	150 cm

Wide offset!
Allows centralized tractor passage throughout the orchard. Thanks to lateral grass discharge, the inter-row area is perfectly covered with the shredded mulch mass.

Precise and manoeuvrable!
The ergonomic design enables precise working in the smallest of spaces and prevents accidental snagging. The standard side shift helps additionally.

Ideal ground hugging
thanks to three-point suspension
with integrated float position (Cat. I)

A master of reliability!
Strong angular gear, oversized
drive as well as protective
labyrinth seal of the blade
bearing

All inclusive!
Front-rear mounting and
hydraulic side shifting

The PLUS models!
Can be combined with various
attachments for mechanical
weed control

Page 40

Page 41

Individual setting of the
cutting height as required
for gentle and efficient work

That's fun!
Easy and quick maintenance
thanks to directly accessible
greasing points

Blossom strips in the orchard!
The M2-Q85 has been specially developed for mulching with blossom strips. The ergonomic design prevents the flowering strips from snapping off.

The PLUS models - Even more efficient
Clean mulching and gentle, mechanical weed control combined.
