1. Organized Devlok

DEVLOK is a 15-days long event empowering learning among students. In this event, we provide the predefined path and participant's code & develop projects around them with their existing skill set or by learning a new one with the guidance of our mentors.
Start Date – 12 Sep
Place – Microsoft Teams
Winner – HalfBitInf
1st Runner Up – Team YVS
2nd Runner Up – Nuts&Bolts

2. Spark – Igniting the fire of development

ARMY INSTITUTE OF TECHNOLOGY

Dighi Hills, Alandi Road, Pune-15

SPARK is a one-month long event organized by AIT OSS club, exclusively for the first-year engineering students to introduce them to the field of web development technologies and provide them hands-on experience on web development under the guidance of experienced mentors and a chance to interact with industry professionals.

Start Date – 19 November

Students Participated – 200+

3. Conducted Innerve 6 in offline Mode

Innerve- Nerve to Innovate, is India's biggest student driven hackathon, organized by OSS Club, Army Institute of Technology, Pune. This year, innerve was back with its sixth edition. After two years of lockdown, this year we had a hybrid id hackathon with first round i.e., ideation round in online mode from 5 February 2022 to 20 March 2022 and the final round in offline mode on 8th and 9th April, in the college campus. 13 teams were selected for the final round of Innerve 6 from a total of 800+ applications, competing for a total prize pool of 10 lacs. Innerve, has a short yet memorable history. It was started in the year 2016, under the guidance of Mr. Anup Kadam, and we are leaving no stone unturned to raise the bar of Innerve with every coming edition. Innerve has always been the most awaited hackathon because it brings with it, plethora of ideas from various domains and it is a gathering of innovators and the torch bearers of innovation.
