

Majd Alfhaily

Profile

A senior software engineer with seven years of experience and an eye for good design and user experience. Capable of taking ownership and driving projects from start to finish.

Experience

SENIOR IOS ENGINEER, BLINKIST – 2020-PRESENT

Made architectural contributions to the iOS client.

Created and conducted A/B tests on regular basis.

Took ownership of driving the agile development practices within the team.

FREELANCE ENGINEER – 2015-PRESENT

Developed customer-facing apps for various clients, examples:

Pocketdex for Pokémon GO <https://apple.co/3cnVJmh>

Power 2 for Apple Watch <https://apple.co/2NTFXpW>

Was actively contributing to the homebrew/jailbreak scene on iOS, developing tools and extensions which accumulated over 600,000 monthly active users.

SOFTWARE ENGINEER, PORSCHE – FEB-NOV (2020)

Built new features in the Porsche Product App as part of a cross-functional team.

Implemented custom UI components in the iOS app as part of the design system.

Worked closely with the design team on building an internal library for showcasing all the components of the Porsche Design System.

PRODUCT MANAGER PARTICIPANT, UNTERNEHMERTUM – JAN-MAR (2019)

Received a 3 months scholarship from Facebook to work in a community of digital product makers and be part of a cross functional team experimenting with new ideas.

IOS ENGINEER, N26 – JUN-SEP (2018)

Built new features in the iOS app such as *Discreet Mode*.

Built extensions for the iOS app such as the Apple Watch app and the "Today" widget.

Experimented with new technologies such as ARKit.

Migrated legacy Objective C code to Swift.

CREATOR, EXTENSIFY – 2015-2018

Created a platform for developers to develop and launch iOS extensions (tweaks) and distribute them on iOS devices without the need of a jailbreak. The platform received more than 200,000 email registrations during the soft-launch and was featured on TechCrunch, 9to5mac, BGR, and Yahoo News.

Education

CODE University of Applied Sciences, Berlin – Bachelor of Science (B.S.), 2021

Certificates

2018	Amazon Web Services Essentials
2018	Architecting on Amazon Web Services
2017	Google Developer Challenge Scholarship

Languages

English	Full professional proficiency
German	Professional working proficiency
Arabic	Native proficiency
