About Me

I study computer science at Ibb University. I'm really passionate about everything regarding computer science and i'm eager to learn about new technologies and languages.

When it comes to complete a project i do my best and work with passion until everything is fully functional.

Education

Ibb University - Bachelor Degree

Computer Science - I am currently staying at Final Level (4th)

2018 - Now

Experience

Ibb Devs team

working as an Android Developer at Ibb Devs team. My main focus is working in a team developing a suite of Workforce Management apps, using mostly MVP, MVC and MVVM design patterns and state of the art libraries such as RxJava, coroutines, Room, Dagger 2, Retrofit and many more.

MAR 2018 - NOW
