

JUNIOR FULL-STACK DEVELOPER

Remote | Startup | Equity Opportunity

Adaptrix builds AI analytics that transform how businesses use data. We're early-stage, well-funded, and looking for hungry developers who want to grow fast.

THE ROLE

- Build features that ship to production
- Work across our Next.js frontend and Node.js backend
- Collaborate directly with founders and senior engineers

YOU

- 0-2 years experience (or exceptional student)
- Comfortable with JavaScript/TypeScript
- Fast learner who takes initiative
- Clear communicator

WE OFFER

- Competitive compensation
- Fully remote (EU timezone)
- Optional co-working in Zurich or Palma
- Possibility of equity participation for those who prove themselves

APPLY DIFFERENTLY

Show us what you can do.
Complete our 60-min coding challenge.
All tools encouraged - use whatever helps you ship.
