

Applied Research Associate Position: AI & Legal/Regulatory Tech Innovation

ETH meets Startup Opportunity

Your Unique Opportunity

Join a startup project at the ETH Law, Economics, and Data Science Group that combines cutting-edge AI research with real entrepreneurial potential. We're revolutionizing medical device compliance using LLMs, backed by a large Innosuisse grant.

What's in it for You

-  Research position at ETH Zurich (in average 65%, 18 months from February)
-  Build innovative AI solutions with real-world impact
-  Work with PhD advisors and industry experts
-  Potential equity in a promising startup
-  Publish in top-tier research journals
-  Shape a product from research to market

We're Looking For

- AI/ML expertise, particularly with LLMs
- Entrepreneurial spirit and flexibility
- Interest in legal tech and compliance
- Strong analytical and communication skills

The Perfect Role If You Want To

- Have a secured position while building a startup
- Transform your AI expertise into business success
- Work with leading researchers and industry partners
- Be part of a potentially billion-dollar market
