

BEING a ROBOT

What is it like to be a robot?

A robot can only understand simple instructions or commands.
For example:

Turn Right

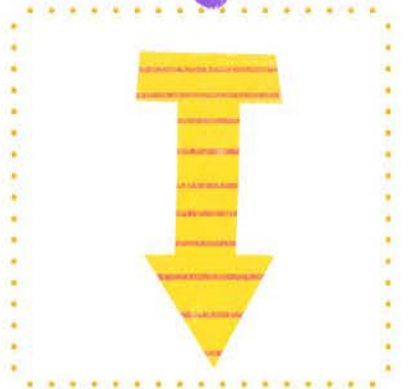

Turn Left

Move Forward

Pick Up
(An Object)

Put Down
(An Object)

Here are some robot games you can play

Game 1. Clean the floor [basic commands]

★ Drop several objects on a floor

★ One person is a robot, the other person is directing a robot to pick objects on a floor by using only the commands above

Too easy?

★ Blindfold the robot and read the instructions aloud. No cheating!

★ Use a timer to see who can clean the floor faster

Game 2. Clean the Floor [fun commands]

★ Use a command with a Loop! (e.g. Move forward 3 times)

★ Add funny commands (e.g. Dance, Jump)

Loop
X - Times

Dance

Crawl

Loop
X - Times

Dance

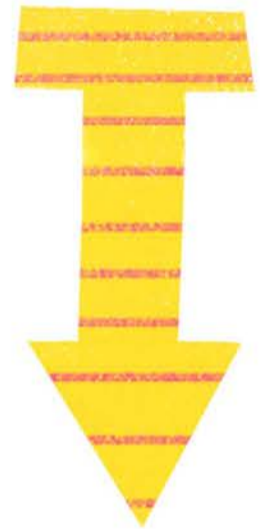

Crawl

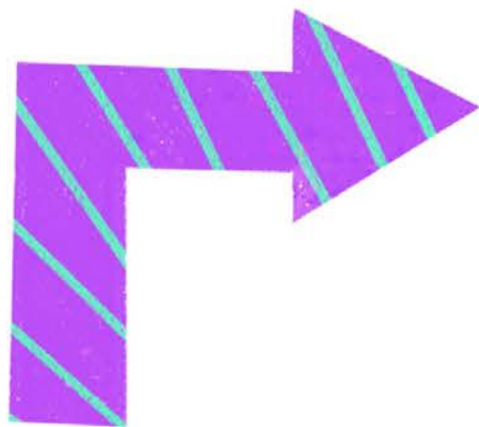

Move Forward

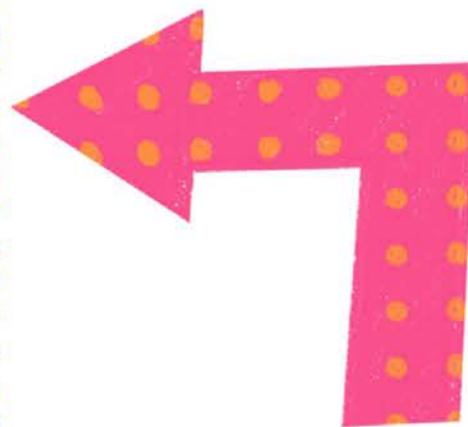

Pick Up
(An Object)

Put Down
(An Object)

Turn Right

Turn Left
