EDUCATION

Texas A&M University, Mays Business School

Expected May 2024

Master of Science in Business

College Station, TX

- Brockman full-ride Scholarship

GPA: 3.81/4.0

Texas A&M University

Aug 2019 - May 2023

B.S Computer Engineering

College Station, TX

- Brockman full-ride Scholarship
- National Merit Scholarship from 3M

COURSEWORK

Data Structures and Algorithms, Discrete Structures, Linear Algebra, Machine Learning, Cloud Computing, Human-Computer Interaction, Software Engineering (Study abroad, Singapore)

EXPERIENCE AND PROJECTS

Highlight.io (YC W23) / *Software Engineer*

Oct 2022 - Present

- Design and build the Highlight.io landing page using **Next.js** / **TailwindCSS**.
- Implemented a no-cost GitHub-based CMS for blog content, cutting build times by **120x**.
- Created a testing suite with **Puppeteer** to benchmark Highlight's monitoring tool.

TAMUHack / *Tech Lead*

Jan 2021 - Present

- Built TAMUhack's virtual mentoring software with Next.js / Tailwind, supporting **800+** users and 4 hackathons across Texas.
- Handled authentication, data, and file storage with **NextAuth**, **PostgreSQL** / **Prisma**, and **S3**.
- Lead a team of 7 developers to optimize hackathon organizational workflows.

Amazon AWS / *Software Engineer Intern*

May 2022 - Aug 2022

- Developed crash detection software for AWS App2Container using **Go** and **TypeScript**.
- Worked with AWS Serverless architecture, including **Lambda**, **CloudWatch**, and **DynamoDB**.
- Increased **Java** unit test line coverage 10%, up to over 85% total line coverage (starter task).

Asciifi.dev / *TAMUHack Grand Prize Winner*

Jan 2021

- Built a low-latency video-calling platform with **React.js** and **OpenCV** which converts video to ASCII characters, yielding speeds **300%** faster than Zoom, Skype, etc.
- Handled real-time data transfer and video calling with PeerJS.

PROGRAMMING SKILLS

- Languages Javascript, Go, Python, C++, Java
- Formatting HTML, CSS, TailwindCSS, Latex
- Web Next.js, SvelteKit, Django, Rails
- Databases PostgreSQL, PrismaORM, MongoDB
- Cloud AWS, Firebase, Vercel, Heroku

AWARDS

- Winner of **13 hackathons**, including:

- CodeRed 2024
- HackTX 2023
- HackUTD 2023
- Tidal ML Hack 23 + 24
- TAMUhack 2023
