

## **THM 4L60-E 1993-2003 SPACER PLATE IDENTIFICATION**

The Valve Body Spacer Plate for the THM 4L60-E transmission has changed every year, since it was first introduced in 1993, and they will not interchange from year to year. The valve body casting changed once again for model year 2001 and at that time the I.D. code on the spacer plate went to 3 digits, as shown in Figure 1. The location of the I.D. code stamped in the spacer plates are also shown in Figure 1. Use the chart below that refers you to a Figure number to identify the spacer plates, which models they fit and the part number to purchase one if necessary.
