

Technical Service Information

GM 6L50/80/90

TRANSMISSION FLUID PAN IDENTIFICATION

COMPLAINT: Technicians often request how to quickly identify the 6L Series Transmission externally.

CAUSE: The 6L50, 6L80 and 6L90 Transmissions look very similar although the 6L50 is visibly smaller. All three pans have 18 bolt holes.

CORRECTION: The 6L50 fluid pan measurements can be found in figure 1.
The 6L80 fluid pan measurements can be found in figure 2.
The 6L90 fluid pan measurements can be found in figure 3.
