ARE INNOCENT ROMANTIC NON-SLUTTY LOVE INTEREST UNPOPULAR?

JILL AND A QUARTER OF BELLA'S HEAD
Being a Dik

Something I noticed is that in most games fanbases usually the sluttier a LI is the more popular they are but I cant seem to wrap my head around this.

by: u/DrPyrokinetic

I am the complete opposite I really like wholesome romantic innocent love interest I recently commented in the Being a Dik sub that my main favorite girl was Maya and secondary favorite was Jill and I almost got crucified got downvoted so hard I deleted the comment because people where borderline harassing me over liking Maya I was a bit shocked that most people prefer girls like Sage, Lily and Quinn and are absolutely repulsed by chick route girls in the game like Maya. Just to give an example what kind of girls I like these are some of my favorite love interests.

Cece from leap of faith
Maya and Jill from BaD
Emma from Bully is My Lover
Annie from Eternum
Kindra from Artemis
Allison from Race of Life
Victoria from Summers Gone

I also want to say that I respect anybody's preferences regardless of what they are I mainly just made this post to see if there where anybody else who also likes the more romantic conservative/prude kind of love interests or if I am just in the minority.

CULTURED PERVS

DID YOU KNOW?

Notice how Rena from Acting Lessons looks like Sage from Being a DIK? Well, that is because they are actually blood relatives. That's right, Rena is Sage's biological mother. Wondering who's the father? It's not Jonas, it's Dick, Rena's fucking dickhead ex-boyfriend and that's why Sage is affiliated with the DIK affinity. Not because she has a DIK personality but simply because she's a daughter of a fucking legit dickhead.

Nah, I'm just bullshitting you (lol). Not bad eh? Still not the craziest thing you've heard. Remember the "Tommy is Tremolo's brother" theory? Motherfucker, that shit is the craziest.

YESTERDAY'S CROSSROADS IS A FANTASTIC HIDDEN GEM

by: u/Dessolos

I just played Yesterday's Crossroads I heard it was a hidden gem but my god I didn't think it would be this enjoyable and good just from 2 chapters. This is easily in my top 10 or top 5 it rivals even my #1 AVN pick and that one has 11 updates. So I expect good things from this one in future updates.

Worst part about this game for me is I know all my relationships are going to come crashing burning down onto me. As every LI in this game I find likeable to the point that I find it hard to say no to them and just be only friends. Even my least favorite one and I hate playing these games like a man whore I usually go a solo path once I decide on who my main LI is but this game I just cant choose yet. I know I read some comments in a post the other day how someone didnt think the writing

or dialogue was any good and dropped this game rather quickly. But I honestly didnt notice anything wrong with it personally. The bad or good writing is a very subjective thing and im the last person to ask about if X had good or bad writing. As I never think about the writing / dialogue as I play these games. I just go with the flow and play the game and if I enjoy the game's story or characters more than your average AVN / too much I just consider it good and dont think about how it was overall or anything.

Not really a review of this game but I just felt like sharing some quick thoughts I had from playing this hidden gem.

GIVE ME YOUR WILDEST, MOST OUT-THERE HOT TAKES!

by: Saitamasdad

Here's mine: I love the goofy best friend trope. Characters like Chang and Derek steal the show for me and are better compared to the nuanced ones like Rusty. What's your spicy take?

Edit : Adding one more hot take as I don't think this one is hot enough.

Leap of faith is not that good the Cece storyline massively carries the game and it has one of the worst pacing of all the AVNs. Cece is also not a good LI, she is a great character don't get me wrong but as an LI she is just not it.

SAD

by: u/Assmongo

FROM THE AVNS YOU'VE PLAYED, IS THERE A "MAIN" LI THAT STANDS NO CHANCE TO THE SIDE GIRLS IN THEIR GAME IN YOUR OWN OPINION?

by: u/vheize

Yesterdays Crossroads is the most recent AVN I've played and I just can't see the "main" LI winning me over when the other girls have similar history with the MC.

The one saving grace she had was them dating for 6yrs when MC was in his late teens and then leaving for another country so there's a whole re-connection plot to be explored, but now we know there's 2-3 more girls he's been close to even before her who also "left" at some point in their own way and all more attractive with cool personalities.

ETERNUM - HOLYS----!

by: u/hairymuffdivr

I'm relatively new to AVNs, and was introduced to Eternum via several recommendations from users here, and I just have to say a very sincere thank you.

This game is an unquestionable, absolute MASTERPIECE. Humor, mystery, suspense, action, emotions, adventure, gorgeous renders, fantastic LIs, and an amazing cliffhanger that has me ready for more!

Major kudos to Caribdis. If you haven't taken the plunge, do it now. Like, literally right now! You won't regret it.

FATES COLLIDE - HAS POTENTIAL

by: u/Thermel

The new freshman at college story has been done before so it's easy to put this one at the bottom in that regard. It's also easy to put it down because there aren't many lewds at this point while other college stories have. The thing that gives this AVN potential- besides the love interests - is the world building. We know there is a criminal element in town and we know the girl we were teamed up with for the class assignment is connected to those criminals - for example.

But hell - I would say check it out just for the Chang Heist. I would not call it a cameo- he helped affect a part of the story.
