# What's your stance on games that "force" sexual encounters on you?

Recently played an AVN and the game basically makes you hook up with one of the girls at the start and it just instantly makes that character unlikable for me (btw it didn't move the plot in any way/wasn't a harem game).

by: u/vheize

*Chasing Sunsets MC over the years.*

**I**n my opinion, if its not stated at the start of the game that a certain character has a close relationship with you if not dating then I don't want random sexual scenes with said character without options.

*Okay with:*

*For me it depends on the context. If it is a pre established relationship im okay with it. If it's the MC perving on a girl / flirting on her without player input and she consents back in the dialogue im fine with it. Even if im not into the LI as long as it they dont force the LI relationship on us. But use that forced lewd scene to show a lewd and show how the LI is easy and how the MC is interested in her. Basically a one night stand type of deal but nothing past that without player input. But this also assumes you aren't on another girls path if im going to be okay with it. As I don't play the manwhore path on purpose unless I just cant decide which LI I like more and it isn't made clear if you are in a relationship with another LI.*

*Dislikes :*

*Now if you choose a dialogue option which makes it seems like you are just being nice to the LI but not really flirty or anything and it leads to a lewd scene I hate this. ( Bare witness comes in mind with this). Any form of forced lewds when in a relationship even if it's something casual and the LI is okay with you being with other LI as it isn't serious. As If I decided i want to be with that LI I want to play as faithful as I can. So really its always about the context and not if its forced or not.*

—u/Dessolos

*I definitely prefer to have a say in whether it happens or not. I've dropped a few games that forced a LI onto me that I disliked, even harem games, but didn't mind it when it was done well enough and of course I liked the character, although the chances of that backfiring, at least on me, is much, much higher. So 9 times out of 10, yeah, I hate it.*

Being a Dik

*This is a pretty fucking hard choice for me but without a doubt, I'd give up a whole Harem for Bella to live in that SG world. To me, she's just worth all the girls combined and more. Maybe the only person who comes close is Jill but my personality would fit Bella more than Jill. It would feel like Jill would judge me morally and then ask me to change whereas Bella wouldn't and she would love and accept me the way I am all fucked up and all. I love Eternum but no one feels like a real person, like any of the choices make sense or are logical, so I don't think I could do that. Besides the superpowers all that game has going for is the cute girls.*

—u/Icy-Inflation4935

*Eternum's the sanest, most humane choice. It's every guy's fantasy. Summer's Gone is a little strange, but can be extremely relatable with its dramas around the MC & Summer. Being a Dik, you're just asking for trouble, but the kind that it rewards you immensely if you stick to your "guns".*

—u/Toriksta

*If you get to be in their AVN too Summers Gone easily as much as a full dive VR game would be badass. I'd trade a dick that barley works to be with Bella.*

*But if we are just the MC Toss up of being a Dik and Eternum. One one hand Being a Dik would change some things about me personally that would be great. At the same time I think Eternum would be closer to my personality with some changes so that would probably end up winning.*

—u/Dessoles

*Eternum should've been the sanest choice (a 10/10 wanbabe) but I'm picking summer's gone only because he's so me (obviously I'm not that freak nor weird but i can relate so much but in a healthy way like high school break up,hard time getting over, football instead of basketball,lack of interest in another relationship.empty break-up reason does it's job well). So I'm happy with eternum and summer's gone but badik is a roller coaster the least i can relate with.*

—u/Commercial\_Welder\_93

*I'm assuming that we get their personality traits too, btw. Probably.. SG? At least at a later point in the story, because I don't want to deal with all of the PTSD and psychological stuff he has going on. On the bright side, I get Bella, and Bella trumps everything. Next is BADIK, because then I get Jill. Not really a fan of Harems(too much energy in my opinion), so Eternum comes last on my list. I just can't imagine trying to live life and juggle my time between like 7 different women \_at the same time.. Nahhh, one is enough for me.*

—u/Endless\_Alpha

*Why anyone would want to be the main character in Erection's Gone is beyond me. Season 2 will probably have pegging in it.*

—u/GyroMo

## “ZERO END” HOLLY CRAP. THIS GAME IS A GEM!

by: u/markkosoy

Very Early development. (only 3 chapters done) But what is here is amazing. The characters are awesome, MC is interesting. “Generic friend dude” is not generic at all. And THE STORY. All the Constantine/Harry Dresden vibes and I love it. The first AVN I decided to support on Patreon and will probably stick to it. The downside is only in sex animations. They are there I guess. And I have seen much worse... Well, they are serviceable but the game is more about the story.

*Yeah, this game deserves so much more attention. When the last update was published, almost no one was talking about it here... and it's definately one of the best supernatural themed games in development right now. To me, in terms of the quality of writing, it's on par with Eternum, although it has a completely different vibe - not a harem comedy fantasy, but a horror urban fantasy drama. The worldbuilding is exceptional, there are genuinely scary moments, the characters seem real and human, they're not just tropes or cardboard cut-outs. And it has actual game elements, like stats, a fight, an adventure game section in the last update... Overall, a great game.*

—u/babielato

Like I'm tired of the whole “buff/skinny and college jock/loser or businessman with the same damn brown or black colored basic haircut” it just gets so repetitive and ik they're supposed to kinda portray a normal guy or something but seriously a normal basic looking guy which you can go find at the corner of the block that is somehow attracting some women who look like models is far from normal. These are some games that have at least a bit unique MCs that I've found so far:

*Eternum.*

*Where it all began.*

*Summers gone.*

*My bully is my lover.*

That's the ones I know of but yea anyway pls do suggest some that stray away from the description (heck I don't care if it's 2D just suggest it). And if it has a good story that will be appreciated to thanks in advance.

## WANNA KEEP YOUR SANITY?? DON'T PLAY THESE TWO GAMES!!

by: u/Anomai

“Bitch Squad and Three Rules of Life”

“Contains minor spoilers for both games”

## IS THERE ANY AVNS WITH A GENERALLY GOOD LOOKING MC?

by: u/Emergency\_Hawk\_5971

God I wish I could remove these two games from my memory,so I can never feel the need to beat up every single character in these two games. I have never felt this much hate for fictional characters in a while. Some train wrecks,you won't be able to look away from. But these two are big pile of doo-doo. And I'm glad to announce that I'm dropping both of em.

Bitch Squad is a "classic" bully-revenge game. Where MC and his friends are trying get revenge on their bullies... you'd think that the bullies are the bitch Squad and you will be surprised to learn that it's actually the MC and his friends. Or it's the player base for playing this game,who knows.

Three rules of life.. this game makes me go "YEAH??" after every scene. Some of the actions MC and side characters take makes me wanna pull my hair out. It's not that you CAN'T portray lgbq person as bad guy. But when character choices doesn't follow a rhyme or reason,it becomes frustrating. Rest of the cast is same... selfish,arrogant, narcissistic and top it all off with God complex.

I donot and will not recommend these games to anyone. Enjoy other game which atleast have only one or two characters that makes you wanna factory reset your brain.

*Never played Bitch Squad, but had bad experience with Three rules of life indeed. If you usually immerse yourself in the character (which I do) - it's a disaster. MC is pathetic and spineless, being pushed around and never stands for himself.You would think he becomes better in a game, grows some balls.. nope) wrong) never) Anyway, it's a specific game, definitely not for everyone.*

—u/MPogAlex

*Personally I really like Bitch Squad, precisely because it's "not" just a classic revenge story. I'll absolutely die on the hill that it's good at being what it wants to be; but I'll admit that what it wants to be isn't something with widespread appeal. A fairly linear story about some characters who are frequently not very likeable, MC included? That's a triple whammy for most players here. But beside that it's generally well written and has a lot of depth in its characters, so it has some things going for it. Three Rules of Life, though... If it's the one I'm thinking of, then I couldn't get more than a few minutes in.*

—u/realpersonhumanbean

*I couldn't stomach Three Rules of Life for long. If you looked up the definition of "doormat", it should just be a picture of this game's MC. On top of that, almost all characters are extremely insufferable, the mother and "best friend" specially, I wish I could shoot them both and dump them in a ditch. Danielle also deserves a beating.*

—u/giggling\_raven

*Three Rules of Life is frustrating to play the MC is a doormat that never stands*

*for himself he just takes all the crap and even thanks people for it as for the other characters everyone is either obsessed with their ex or a complete asshole especially his best friend and the worlds worst mom who left him for the most stupid reason ever before this I had never played a game with so many insufferable characters in one.*

—u/gachagamer445

## WHAT DO YOU THINK?

by: u/quickano

Corporate needs you to find the differences between this picture and this picture.

They're the same picture.

*On one side we have being a dik and on the other side we have walmart being a dik..*

—u/Soggy-Bumblebee-2245

*I haven't played College Kings 2. I did play the first two episodes of the original College Kings. College Kings is like if you took the soul out of BaDIK. It feels hollow and empty. Like a husk. It certainly "looks" like BaDIK but you don't get anywhere near the same enjoyment playing it.*

—u/Ksteekwall21
