# WHAT OLD AVNS WOULD YOU LOVE TO GET A “REMASTERED” EDITION?

AVNL LOVERS

COMMUNITY OF THE CULTURED

**BACK WHEN I FIRST DISCOVERED AVNS YEARS AGO, THEY WERE PRETTY BARE BONES AND DON'T HAVE MANY OF THE MODERN FEATURES ALOT OF AVNS HAVE NOW A DAYS.**

**W**e've seen remastered/remakes of our beloved childhood games like Final Fantasy, Persona, Zelda and a bunch more! If we had the ability to give an old AVN a new face lift, what would you choose?

For me, "Once in a Life Time", "Acting Lessons", and "Sisterly Lust" are all games I would love to see with better graphics, animation, music and UI. These games were each devs 1st project and have upgraded their hardware and skills ever since! Imagine

what their 1st project would be like with the new bells and whistles they implemented in their current abilities.

Share some of your old AVNs that were near and dear to your heart, you'd throw money at if they ever got that upgrade they deserve! I would love to hear about them!

Cece, Leap of Faith

**u/Soggy-Bumblebee-2245***I play for the story*

Acting lessons, good girl gone bad are the two I believe should get a remastered version....

also the Deus of Babysitter have done a great job remaking the game so far.

**u/Comprehensive\_Pea451**

Really none. There is no old AVN this outstanding that we need a rework.

Acting lessons and Leap of faith are good but i would aaaaalways prefer the deus starting a new project compared to reworking.

**u/Exotic18**

Badik needs the early chapters remastered to current quality.

**u/johnman300***Broken Bird Syndrome*

None. None at all. It's VERY rare that I have the time to go back and re-play a game after I've completed it. I have so many things waiting to play, that I'd just as soon dev work on new stuff. All deus get better as they continue to master their craft. The technology is changing and improving over time. Remaking stuff would just be chasing your tail. OiaL, Now and Then, LoF and AL are exactly what they should have been in my brain. I'd rather have Eternum, Interim Domain, U4ia and Being a DIK come out faster.

**u/\_DemonKing\_***Ass Man*

I'm right there with you with Sisterly Lust. That's the first VN I've ever played and till this day Bella remains one of my top 5 Love Interests. To be able to see her with updated renders and animations would be amazing.

**u/PsychologicalBody812**

I'd say "Once in a Lifetime," but Caribdis has been very vocal on his Discord that he doesn't do remakes/remasters and would rather spend his time making new stuff instead, so.../shrugs

**u/tsh\_scorcher**

I think STWA The Author, but if I'm not mistaken it's in the plans for the future.

**u/lokkenjp***Senior Perv*

Now and then. An incredible game that would surely benefit from a GFX overhaul.

**u/Federal-Room-9812**

Sisterly Lust and Once in a life time are great, but I think old games have a special kind of charm, in the end it's all about what the developer wants, maybe Caribdis is planning a remaster, maybe a new game, I believe this kind of projects are worth the effort and wait time when theres passion.

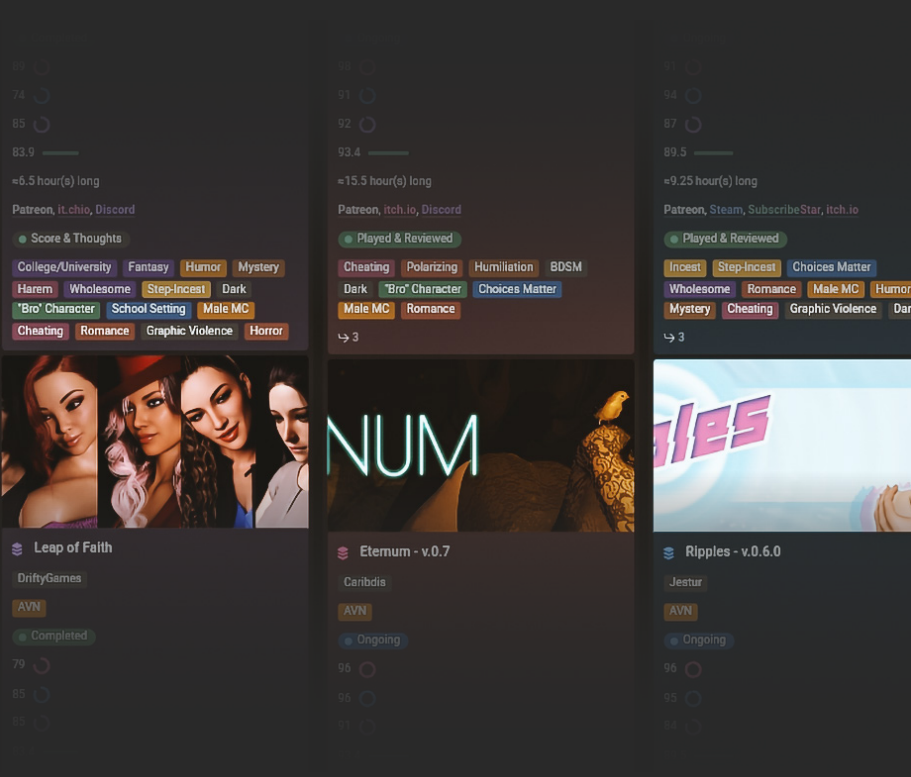

**u/Inevitable-Ad6776***I play for the story*

Acting Lessons could definitely benefit from a remaster, but it's honestly too soon. It's the same for most VNs. Yes they can be considered ancient compared to the quality of the new ones but the industry really hasn't reached the point of remaking/remastering yet. Maybe one day.

# Stone Forrest's Recommendation List

u/Stone\_forrest Contributor

It's been roughly six months since I first shared it here, ahem pinned post in my profile ahem, so here's my [recommendation list](#)'s biannual refresh post. I've added some games since last time, including but not limited to:

Sicae, The Hellcat Lounge, Shale Hill Secrets, Fates Collide, The Arson Betrayal, Between Humanity, Welcome to Free Will, Yesterday's Crossroads, Zero End, No Such Luck, The Nymphomaniac, Fighting For Love, No More Money, Leaving DNA, Evermore, Corporate Culture, The Spice Pirate, Trouble at Home, With Eyes Closed, and Alpha Omega.

That's omitting all the new updates for games already on the list. Needless to say, I've been having a good time. The list currently includes 113 games with varying levels of recommendation status. If I'm missing any games you consider must-plays or high recommendations please let me know—can't ever get enough of those.

**Some extra additions since last time I posted include:**

Introduction of the Date of First Release property. To make my life easier for the next AVN awards.

Introduction of the Version Released property. To let you know how long it's been since a game's update was released.

The Support Them category now includes Discord information for all games that link it in their main menu. A bunch of SubscribeStars have been added.

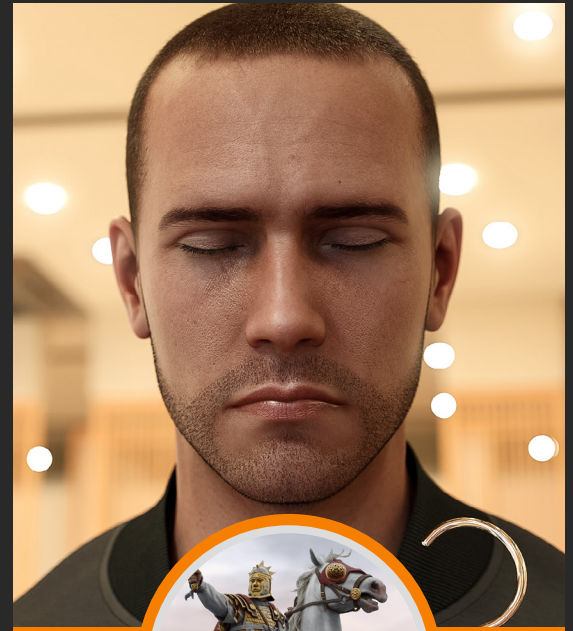

The Length property has been changed from ranges to exact numbers to help players know how long a game is likely to last.

The Wildcard category is now called Not for Me. To better represent what it actually means.

Creation of the AVN Essential category to reward the games that paved the way. I promise u/imjustthereforpron I'll get to Summertime Saga... eventually.

Feel free to drop any ideas for quality-of-life changes or features in the comments. Special shoutout to the AVNs and Ass Men discord server for keeping me up to date with game updates. That's all, see ya in six months.

*Disclaimer: I score shit relative to other AVNs. I'm not comparing them to fucking Shawshank Redemption. I understand, however, that trying to encapsulate a human experience into a bunch of numbers is a futile if not idiotic thing to try and do. So don't take any of the numbers or opinions here too seriously.*

## Editor's Note

.....

Hello, your editor here! Unfortunately, due to space constraints, our magazine cannot feature all 113 games, so here is the [link](#) u/Stone\_forrest provided instead. A big thank you to him/her for putting together such an awesome recommendation list.

I have no words for this game. 10/10, there's literally moments where I had to pause the game because how relatable and real the characters are. There's comical moments, there's some serious moments that hit different man. If you haven't tried the game definitely try it.

AVNL LOVERS

COMMUNITY OF THE CULTURED

**I OFTEN FEEL LIKE I'M THE ONLY ONE THAT HAS, BECAUSE NO ONE I KNOW OF SEEMS TO BE ABLE RECOMMEND MORE THAN 2 GAMES TOPS FROM BEFORE THEN. DOESN'T ANYONE HAVE ANY NOSTALGIA FOR ANYTHING?**

For example, I can't remember any names because my memory sucks, but I remember a lot of fun little games on newgrounds that still had a story, but they were mercifully short, and to the point. I really wish I could find more like this now, and play a bunch of games from the 00's and early to mid 2010's.

**u/lu98ke**

*Since 2010(ish) I played generic porn games, for example all the games of meet n fuck series (and maybe this is the reason why I like thighs), and there were a lot of other games, most popular genre was strip blackjack or stip poker, with the picture of real pornstar, or little teasing video. Can't remember very well the others.*

**u/Fairzztwitch**

*Demon girl was a hardcore go to when I was a teenager on newgrounds Grew up on all the leisure suit Larry games as well and let's just say there was some hot point and click boobs in them for 199X*

**u/TheToiletGaveMeSTDs**

*Playforceone was a great website back in and around 2012. That's when I really started getting into AVNs. That*

*website isn't as good as it used to be.*

**u/CheesecakeVisual4919**

*I play for the story*

*I played Date Ariana and a few web games way back in the day, so yes. I returned to AVNs in 2020 picking up Acting Lessons and Being A DIK Season 1 on Steam the same day, October 17, 2020. I played Acting Lessons first.*

**u/Petardo666ET**

Oh, lived those good times! And missing them! No stupid ntr or not discussions, no pretentious players criticising everything, no hate messages... just horny weirdos enjoying their games!

**u/joegrizz**

I remember the first time I played Corruption of Champions 1 and quickly learned that none of the things in that game were for me

**u/Lurip**

*Step Sister Supporter*

Sharks Lagoon made (still makes, I believe) games that I stumbled upon in my teens and quite enjoyed. I didn't actually get into AVNs before I restarted playing Sisterly Lust and upon finishing saw that Perverteer was already working on a new game. That was 2022 I think.

**u/RaylynFaye95**

*Wholesome Pervert*

Played the original version of Depreuaed Awakening. Nutted 4 times that day, stayed for the story.

**u/Blacc\_Jesus**

Surprised nobody mentioned this but. I wanna say back in 07' or 08' South Park had a Aun-esqe game. I vaguely remember it was about a festival, maybe Woodstock or something but you go around and sleep with random women in a barn but you can't get caught or something like that. I believe you played as Randy marsh. Other than that dating Ariane got me down the Aun rabbit hole in 2020 during lockdown

**u/LHDLLB**

my first aun was around 2020, I don't really know but even now AVNs feels kinda new, in the sense that it is a media that is not fully mature, I can not speak for VNs with out adult element as the majority of it seems more eastern and I am not much fun of the artstyle. But porn games I dont think that are new, in the Playstation 2 had a Playboy game and some others more sexual themed, the infamous San Andreas HotCoffe incident and even The Sims always had sexmods

**u/johnman300**

*Broken Bird Syndrome*

I played Japanese AVNs way back in the day. Like decades ago. Some of those were... long. Like enormously long.

**u/Dessoios**

*I play for the story*

I played newgrounds on and off since middle school but don't really the names of the ones I liked to be honest.

Then around 2017 - 2019 not sure of the year I found the zone had no idea what AVN's were back then didn't really play any for the story would just look for the porn but a few I did. Like My girlfriend's Amnesia ( my personal favorite and still consider S tier to this day because of nostalgia). Then I played a good chunk of DMD , as well as Teachers Pet and College Life. Any other AVN's from back then I cant recall the names of them.

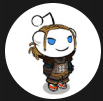

Then I started to actually pick up AVN's as a hobby over normal games more often last summer.

**shoutout**  
to all the **veteran**  
avn enthusiasts.

# WHO DO YOU GUYS THINK IS THE WORST GIRL? (SIDE AND MAIN INCLUDED)

u/Lonely-Ad8384

AVNL LOVERS

COMMUNITY OF THE CULTURED

AND I DON'T MEAN HOW THEY ARE WRITTEN BUT THEIR PERSONALITY. FOR EXAMPLE, CASSIE FROM ARTEMIS IS AN ABSOLUTE BITCH. NOT REALLY LOOKING FOR THAT TYPE OF GIRL, MORE SOMEONE WHO IS CRUEL AND MANIPULATIVE BUT STILL SOMEONE THE MC CAN LOVE AND BE ENDEARED TOO.

## u/vheize

Keyla from Yesterday's Crossroads. (I think that's her name)  
She's not a horrible person personality wise, just a very stupid decision maker

- her and MC break up since she's moving away and she tells him to stay single until she returns,
- accidentally meets MC again in college while in a relationship,
- her bf turns out to be MC best friend,
- she cheats on her bf with MC,
- then proceeds to marry the best friend after the fact,
- while in her relationship with the best friend, she still loves the MC and miserable in her marriage.

MC doesn't get a pass with hooking up with his best friend girl even if she was his 1st, but Keyla is still an idiot for being

such a hypocrite and making stupid decisions.

## u/FarUse2339

- \* Kathleen from Pale Carnations
- \* Kim from Nothing is Forever
- \* Around half the cast of Defending Lydia Collier
- \* Pretty much the entire cast of Karlsson's Gambit
- \* The Queen in Desert Stalker
- \* Shanlon in City of Broken Dreamers
- \* Pretty much all the side girls from The Seven Realms aside from Tasha
- \* Olivia and Akemi from Stormside
- \* I forget their names but the main girl that starts the whole thing and a few of the side girls from Fetish Locator
- \* Iuy, Minerva, and kinda Cindy from Our Red String
- \* Leia from Where it all Began
- \* A decent amount of the girls in Seeds of Chaos

Kathleen, *Pale Carnations*

### **u/Dessolos**

*I play for the story*

*These are just my personal opinion  
For me these are the worst of the worst*

- \* Vulvamort - Artemis
- \* Kim - Nothing is forever
- \* Sierra - Trouble at Home
- \* Quinn - Being a Dik
- \* Kathleen - Pale Carnations
- \* Zoe - The Hellcat Lounge

*These ones are bad but not anywhere  
close to the ones I listed above*

- \* Robin - Summers Gone ( I know  
she isnt a horrible person but I cant  
forgive or trust her she crossed a line  
for me which is why she is on this list
- \* Vanessa - Summers Gone
- \* Kim - Yesterdays Crossroads
- \* Keyla - Yesterdays Crossroads
- \* Susan - Freshwomen
- \* Lea - Dreamland
- \* Isabella - Eruption Imminent

### **u/imjustthereforpron**

*Harem Hunter*

*If we are talking about worst in terms  
of worst person I think Kathleen from  
Pale Carnations may have Vulvamort  
beat, especially with the most recent*

*update to PC. Cassie seems to be  
upset about her decision and at least  
tried to rationalize it. Kathleen clearly  
revels in destroying lives and wants to  
keep doing so. I mean she pretty much  
admits to the MC she is a sadist with  
no empathy.*

### **u/13thdeux** Drunk Idiot

*Chivalrous Pervert*

*I don't think she can still be loved by  
anyone, but Leah from Acting Lessons,  
imo, is the absolute worst.*

*She has committed murder, arson, and  
intentionally worsened Liam's cancer  
treatment, driven solely by her fixation  
on Jonas. What an evil bitch.*

# WHAT'S THE BIG DEAL ABOUT CHASING SUNSETS?

u/VdeVernaculo  
Contributor

AVNL LOVERS

COMMUNITY OF THE CULTURED

## u/Whiskeyrich

*I play for the story*

*It's a good story, very funny if you're paying attention, stunning women, even the non-LIs. I haven't found dialogue that comes close to being as romantic. The dialogue during sex scenes adds to the heat of the lewds. If all you want are fap fests, Chasing Sunsets is not for you.*

## u/InternetCitizen0

*Ass Man*

*It's a pretty good AVN by AVN standards. A gem amongst them, if we're being honest.*

*My favourite part has to be how well written the interactions between the characters are, especially in the intimate scenes. Oh, and the LIs are all pretty hot. Jaye especially, cause she got me into it after her cameo in LOF.*

## u/Toriksta

*I will burn in hell for my choices*

*I just wanted Tara bro. They can take Jaye and Mal and I wouldn't care. This is another AVN with the hotter and better side girl who's unapproachable.*

## u/ApprehensiveBig1830

- 1.MC's relationship with other LI and characters (mom and dad)
- 2.Script is well written (one of the best scripts where you genuinely want to read the dialogues not just skips past it)
3. Well written background of characters
4. Romantic relationships feel genuine and refreshing (not just hunger for lust)
- 5.Slow burn relationship with LIs until 6 chapters ( I like slow burn , give more meaning to relationships)
6. Mc has some sense of character (not just a horny character who wants to

*fuck everything that comes in his way)*

7. Side characters have meaning in the story
8. Inclusion of humor and meme culture in scripts
9. The story feels realistic and shows that the story direction has a well driven future where you can see the picture unlike some AVNs (ahm..ahm.. Badik)
- 10.Graphics and character designs are phenomenal (one of the best)
- 11.FUCKIN HOT REDHEAD , GREEN EYES , TANNED BODY, THE SEXIEST WOMEN IN THE AVNS NOT JUST A BIMBO BUT A GODDESS ( JAYE)

## u/AgRevlis

*If an AVN makes me feel something, it's top tier. If it is simply entertaining, then it's a good game. Chasing Sunsets is top tier.*

**u/LHDLLB**

*While I do have some problems with it, it is well written, has good visuals and I quite like the contained scope of the story, that are not many AVNs that are that well balanced. That said I think that can understand where you come from, I do think that it is a incredible game but I also think that at times it is a bit overhyped.*

**u/johnman300**

*Junior Perv*

*There are a couple of SGs, but the game is in general VERY focused on the two LIs. This has really allowed the dev to delve very deeply into backstory of them both resulting in very three dimensional characters. Most girls in other games are paper thin as far a characterization and backstory goes.*

**u/Ultra\_Nova\_**

*DAZ Defender*

*Well, it's always a matter of personal opinion.*

*But if you ask me, CS has: cute story, decently written, good visuals, characters look very good (Jaye is just top 5 LI's), they are also believable, animations are great too. I'm not saying it's perfect and everyone should like it but very few VNs check those boxes. So yeah... I think it deserves the praise.*

IT DOESN'T MATTER

I'm hot
