

## USING THE BARNETPOS PORTAL – Price Group/Tiers

### 1. Step 1

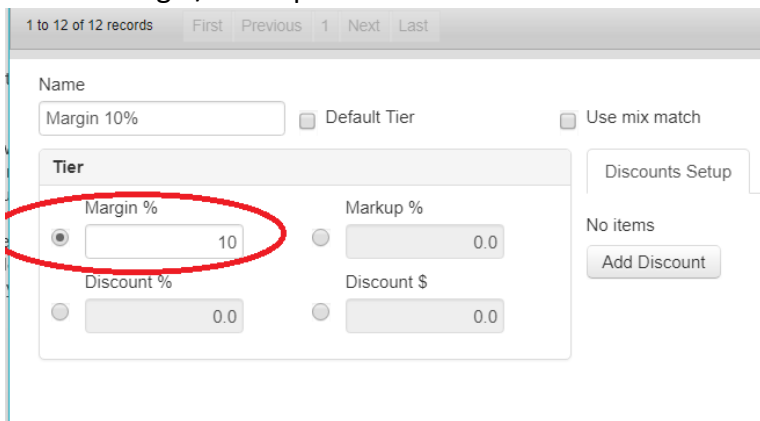

#### Go to

### 2. Step 2

- Add new Price Tier
- Type < Price Tier Name>
- Select <Tier> and type Value

#### 2.1. For Margin/Markup

The screenshot shows the 'Price Tier' configuration form. The 'Name' field contains 'Margin 10%'. The 'Tier' section has four radio buttons: 'Margin %' (selected), 'Markup %', 'Discount %', and 'Discount \$'. The 'Margin %' field is highlighted with a red circle and contains the value '10'. Other fields include 'Default Tier' (unchecked), 'Use mix match' (unchecked), 'Discount %' (0.0), 'Markup %' (0.0), and 'Discount \$' (0.0). There is also a 'Discounts Setup' tab and an 'Add Discount' button.

#### 2.2. For Discount \$ or % : Type discount \$ or %

#### 2.3. For Discounts \$ or % by quantity:

- select <Discounts Setup> tab under <right panel>
- press <Add Discount> button and type QUANTITY under <from > / < to >
- **Type Price per UOM (one unit) ( each/ g/ and etc..)**  
**Important: Price per one unit, not Total price**

○ Press <save changes>

If you plan to use <Mix & Match> function under POS register, check <Use mix match>

**3. Step 3**
