PROFESSIONAL SUMMARY

A Full Stack Software Engineer with 20+ years driving innovation, revenue and a superior client experience in wealth management through high-performing teams & robust software solutions. I am a proven leader who leverages technology to deliver measurable impact for financial institutions and clients alike.

PROJECTS

The Dino Hunters - Interactive Educational Platform | [LIVE](#) 2023

- Designed, developed and deployed a full stack web application giving kids an interactive and fun way to learn about dinosaurs.
- Built front-end using React, CSS, Ant Design, Generative AI (Night Cafe), deployed the application to AWS Amplify.
- Back-end API constructed using Express.js, Node.js and deployed to Google App Engine
- Used MongoDB for the database.

WORK EXPERIENCE

Software Engineer Boca Raton, FL Edgy Nerd 2023 - Present

- Working on a team to design, develop, and launch a fully accessible mobile dating application, including authentication, subscription-based payment processing, AI text to speech and speech to text capabilities, real-time text-based chat and telephony, proprietary AI personality matching using vector search, and push-based notification system.

Mobile Software Engineer Boca Raton, FL LVL Up Imaging Nov 2023

- Co-Project manager of a team of engineers to develop a photography equipment mobile application.
- Had a record 55 merged pull requests in a single day and added 15 screens to the application.
- Programmed the software of several screens using JavaScript in React Native and Expo.

Sales Manager - In-Home Expert Boca Raton, FL AT&T Jan 2022 -Present

- Enhanced client retention and maximized sales revenue via customer-focused, exclusive cross-selling opportunities.
- Part of a top 5, high performance sales team providing customers with white glove technology service.

Wealth Manager | Benefits Advisor Boca Raton, FL Horace Mann | National Teachers Associates | Cambridge Investment Research | Newbridge Securities Feb 2008 - Oct 2022

- Spearheaded a company-wide implementation of a new product line which added over \$100 million in new assets.
- Led a cross-functional team to architect a technology-driven platform for personalized wealth management resulting in enhanced client experience, boosted revenue, and demonstrably efficient operations.
- Helped Palm Beach County School District employees navigate personal finance and save millions in student loan debt.
- Maximized cross-selling opportunities for company agents generating significant revenue and improved client experience.
