PROJECTS

FUR-EVER FRIEND - REACT NATIVE APP REPO   May 2023
- Designed and implemented a mobile app using Native Base component library, enabling a user-friendly interface and enhancing the adoption process by matching shelter and rescue dogs with suitable owners.
- Utilized Express, Node, and Firebase technologies to connect the app to an API, for data communication and secure storage, while leveraging stack navigation and swipe navigation for improved user experience and smooth navigation within the app.

Water Tracker - React-Native Based App REPO   May 2023
- Developed a water tracker mobile app using React Native, Async Storage, and Native Base, enabling users to track their daily water intake in milliliters.
- Implemented Async Storage for data storage and retrieval, while integrating Native Base to create a responsive and visually appealing user interface.

WORK EXPERIENCE

CROSS COUNTRY HEALTHCARE   Boca Raton, FL
Billing Specialist   Jun 2021 – Mar 2023
- Spearheaded a complex **$3 million** project for Advent Health Orlando to identify and resolve payment discrepancies for **200+** invoices resulting in mitigating financial risks.
- Successfully tackled a substantial backlog of over **1,000+** invoices upon joining a project, while also managing a monthly influx of **300+** new invoices. Resulting in reduced backlog from over **1 year's** worth to a manageable **3 months** of backlog.
- Acted as a valuable source of information and support for a team of **10**, readily assisting them with queries and guidance.

BIOARRA (13 employee biotech startup)   Eagleville, PA
Finance Specialist   Jan 2017 – Sep 2018
- Oversaw **100+** monthly vendor bill payments, streamlining the process and optimizing cost control in order to support a **start-up environment**, ensuring smooth operations and adherence to financial processes.
- Managed timely remittance and ensured regulatory compliance for healthcare benefits payments of over **75+** employees.
- Efficiently managed over **700+** credit card transactions and reconciliations on a yearly basis, while maintaining records, ensuring accountability, and organizing receipts to accurately match the purchases, to enhancing transparency and audits.
- Oversaw **monthly** transactions totaling over **$500,000**, encompassing expenses, salaries, taxes, insurance, and other financial obligations. Resulting in ensuring accurate and timely financial management.
