**Technologies:** React | React Native | Electron | Docker | Azure | AWS | GCP | Express | Node | Firebase | MongoDB | MySQL | Git

**Languages:** English | Hebrew

**Training:** Israeli Defense Forces, Drill Sergeant

## WORK EXPERIENCE

### RAISELINK

Boca Raton, FL

#### Program Manager

March 2023 – Present

- Helping determine the strategy, and goals for the RaiseLink platform, as well as setting timelines and prioritizing key features and tasks.
- Collaborating closely with architects, designers, developers, and stakeholders towards alignment and affective integration.
- Developing and solving the complexity of both backend (databases and APIs) and frontend (web and mobile) of the platform, as well as overseeing the design of compelling user experience and user interface (UX/UI).
- Monitoring key performance indicators (KPIs) to create the success matrix of the platform and identify growth areas.
- Gathering and analyzing users' feedback to ensure that the data insights exceeds needs and expectations.

### BOCA CODE

Boca Raton, FL

#### Assistant Project Manager

March 2023 – Present

- Supporting Project Manager in defining project scope, objectives, and deliveries to ensure they are aligned with stakeholders' needs.
- Working in an AGILE/SCRUM environment to coordinate and delegate project tasks to team members, monitor progress, and provide guidance and feedback to ensure quality and timely delivery.
- Facilitating project meetings, and training sessions to ensure project objectives are met, and team members are aligned with project goals.

#### Software Engineering Intern

Jan 2023 - March 2023

- Navigated and assisted small groups of students in daily classroom topics, such as debugging, code challenges, databases and APIs.
- Lead Saturday instructional/practice sessions and conducted classroom workshops such as *'Imposter Syndrome'*.
- Collaborated in a team of **15**, using AGILE/SCRUM methodology to build a FERN stack application in TypeScript.

### ALLTERCO - SHELLY ROBOTICS

Boca Raton, FL

#### IoT Intern

Jan 2023 – Apr 2023

- Collaborated with a team of **5+** engineers in an AGILE/SCRUM environment to optimize the front-end of CRM for IoT engineers that are managing and assessing **1000+** IoT devices. Utilized HTML/CSS/JavaScript and various component libraries.
- Optimized multiple APIs for different IoT devices such as plugs, lamps, and relays to exchange real-time data efficiently and accurately.
- Developed and tested new and existing IoT devices and systems to ensure they met the desired functionality and performance criteria.

### YELED V'YALDA

Brooklyn, NY

#### IT Liaison

Sep 2018 – Jun 2022

- Communicated daily between the Main-Office IT department and a network of schools around NYC.
- Implemented the use of technology to support the core work of the school through; [nyworksforchildren.org](https://www.nyworksforchildren.org), [schools.nyc.gov](https://schools.nyc.gov), [teachingstrategies.com](https://teachingstrategies.com).
- Developed effective ways in which technology can support the teaching of the students through; [IXL.com](https://www.ixl.com), [khanacademy.org](https://www.khanacademy.org).
- Supervised electronic and online communications for staff, to ensure all data entry of the students entered appropriately.

#### Head Teacher

Sep 2008 – Jun 2018

- Developed weekly lesson plans and activities and set-up classrooms. Assessed children's individual needs and development.
- Worked with families to promote the social, emotional, physical, and cognitive development of their children.

## PROJECTS

### QUICK-COOKS - WEB APP [REPO-FRONTEND](#) [REPO-BACKEND](#) [LIVE](#)

April 2023

- Created a full stack web application that allows users to browse through quick and easy recipes by categories, giving them the ability to add their own recipes, edit and delete them if necessary.
- Used MERN stack with JavaScript and Ant Design's component library. Deployed Front and Backend to GCP, in addition Frontend also deployed to Azure. Utilized Google Login and secured with Firebase Auth.

### VOTING APP [REPO](#) [LIVE](#)

Nov 2022

- Collaborated with a team of **17** engineers to create a voting app, utilizing AGILE, Github, FERN stack with JavaScript and Ant Design's component library. Deployed to GCP.
- Used at Ignite South Florida Startup Summit 2022, and other South Florida Pitch competitions.

## EDUCATION

### BOCA CODE

Boca Raton, FL

Software Developer Certificate

Dec 2022

### TOURO UNIVERSITY

New York, NY

Bachelor's Degree, Education

Jun 2008
