Wednesday October 29th at 20, Anderson Rd Bunyip

5-6pm Annual General Meeting

6-7.30pm BBQ meal provided

Please let us know if you plan to attend (for catering purposes)

bragbunyip@gmail.com or call Helen on mobile 0411274025

BUNYIP NORTH BATTERY ENERGY STORAGE SYSTEM

Following further consultation with RES (Renewable Energy Systems)

BRAG has made an in-principle decision to support this project with certain important provisos.

RES has officially launched their proposed project in both the Pakenham Gazette and our Bunyip Community Newsletter and is now preparing to embark on a meaningful community information and engagement program. Please watch this space for your opportunity to ask questions and provide local input over the next few months.

Whilst acknowledging the need for Battery Energy Storage Systems to stabilize the grid as we transition to renewable energy sources BRAG believes there are still a number of local issues that will need to be resolved and mitigation measures explained by RES to the community before they can gain the social license needed for their project to proceed:

BRAG will raise these anticipated concerns with RES and will be interested to see if satisfactory responses are forthcoming as the project moves to the next stage.

BRAG would like to offer the following items to any local NFP organisations who are keen to minimize their energy bills.... Contact us bragbunyip@gmail.com if interested.

4 Draft Stoppers to reduce
loss through ceiling vents

2 Valve Cozi to prevent heat loss
through pipe valves on hot water service

1 Sealant to fill drafty cracks.
