

BREVITYEVENTS.CO.NZ

For New Zealand events, ensuring the safety of temporary structures is crucial. At Brevity, we specialise in engineering and certification, helping you meet and exceed safety standards across Aotearoa.

We're your partner for comprehensive services tailored to New Zealand's regulations. Our expertise ensures your structures comply with local building codes, council consents, and all relevant safety standards, including:

- **PS1 (Producer Statement - Design):** Expert design certification for your temporary structures.
- **Construction Monitoring:** Optional on-site or remote inspections to check installation.
- **PS4 Sign-off:** We'll confirm you're good to go!
