

Introduction to the Cereal City Science Online Learning Platform. (Online Training)

This one-day workshop will provide an introduction to the online tools that Cereal City Science has developed to help support blended learning in the classroom and out of the classroom. Teachers should begin to incorporate these tools into the current Cereal City Science Curriculum so that students can be prepared for synchronous online learning, if needed. The platform consists of creative use of readily available tools such as Google Slides, Google Sheets, Jamboard, ArcGIS and SageModeler. Coupled together with a Learning Management System (for example Schoology or Google Classroom), the platform will allow students to continue to figure out phenomena as they discover important Disciplinary Core Ideas using the Science and Engineering Practices consistent with the NGSS.

Dates: August 12, 2020
August 19, 2020
September 17, 2020
September 25, 2020
September 30, 2020
October 15, 2020

Time: 9:00 am – 3:00 pm

Cost: Free

Registration: A registration form is attached. Please send the registration form to Cindy Older at cindy@bcamsc.org or fax it to 269-965-9540. A reminder Zoom Link will be sent 2-days prior to the meeting.
