

# Safe and Sane fireworks examples.

All travel no more than one foot in the air or six feet on the ground.

## Cone Fountain

Upon ignition, a shower of colored sparks, and sometimes a whistling effect, is produced.

## Smoke Devices

Tube or sphere containing pyrotechnic composition that, upon ignition, produces a white or colored smoke as a primary effect.

## Wheels

Pyrotechnic device attached to a post or tree by means of a nail or string. A wheel may contain up to six "driver" units; upon ignition, the wheel revolves, producing a shower of color and sparks and, sometimes, a whistling effect.

## Novelties

"Trick and Novelty Devices" means any small firework device not classified as a Consumer of Display Firework. Items contain a small amount of pyrotechnic composition that is friction sensitive.

## Dipped Stick, Sparkler

Stick or wire coated with pyrotechnic composition that produces a shower of sparks upon ignition. Total pyrotechnic composition not to exceed 100 grams per item.

## Ground Spinners

A small device similar to a wheel in design and effect. When placed on the ground and ignited, a shower of sparks and color is produced by the rapidly spinning device.
