### PROFILE

I'am Abdulrahman Abubakar a passionate and skilled Frontend Developer with 3 years of experience in creating dynamic, user-friendly web applications. I specializes in developing responsive, high-performance interfaces using the latest web technologies. I expertise includes HTML5, CSS3, JavaScript, and popular frameworks such as React, Next.js, and Node. I has a keen eye for design, ensuring that my applications are not only functional but also visually appealing. proficient in working with RESTful APIs, version control systems like Git, and has experience with various tools and libraries that streamline the development process.

### WORK EXPERIENCE

#### Software Developer

- Rg Tech 2024
- Developed applications using React while managing the State through Redux and Redux-Forms saving 5+ hours of users' time.
- Built API following RESTful standards to allow users to submit information by storing data in MongoDB
- Designed an integrated database using MongoDB that leveraged the React architecture to yield on-demand, detailed feedback.
- Simplified reporting to deliver actionable information to servers, resulting in multiple servers achieving financial stability by coming in under budget by 2% or more.

#### Frontend developer

- Gpower 2023,2024
- Created a Mobile Responsive User Experience with CSS Flexbox that allowed cross-platform accessibility to the website on any device with primary use on mobile. This increased the number of 5 star User Experience/User Interface reviews by 360%.
- Built API following RESTful standards to allow users to submit information by storing data in MongoDB.
