Aluminum Cleaner-AT

Room Temperature Aluminum Cleaner and Degreaser

Description

Aluminum Cleaner-AT was developed to clean oils and greases from aluminum, anodized aluminum and steel metals at room temperature. Aluminum Cleaner-AT is used at low concentrations and low temperatures to readily remove identification ink, machine oils, metal chips, drawing compounds, soluble oils, talc, rust preventatives and shop oils from the base metal.

- Aluminum Cleaner-AT is a concentrated liquid cleaner.
- Completely soluble in cold water.
- Non-Corrosive to aluminum, anodized aluminum and steel when used as directed.
- Effective cleaning at low temperatures.

Method of Use

Application Methods

- Spray
- Immersion

Mixing Instructions

- Fill the tank with 2/3 of the desired amount water.
- Add 4 to 10% of Aluminum Cleaner-AT by volume to the tank.
- Mix well.
- Add remaining amount of water. Operating temperature should not exceed 150°F during the cleaning operation.
- If used in a spray washer, do not use pressure higher than 30 P.S.I. or foam will appear.

Caution

Use mild steel tanks. Provide tank with an overflowing pipe or grease dam to permit skimming of accumulated oil, greasing and floating solid particles from the bath. It is desirable to remove loosened soils. Air agitation or even simple withdrawal and re-immersion of part is helpful. Avoid contact with skin, eyes and clothing. Protective clothing such as face shields, rubber gloves, aprons and boots should be worn when handling this material. Refer to product label and material safety data sheet for additional precautionary and handling information.

Product should be stored at no lower than 50°F and no higher than 100°F.

Warranty and Liability Disclaimer

The above information and recommendations concerning this product are based upon our laboratory tests and field use experience; however, since conditions of actual use are beyond our control, any recommendations, or suggestions, are made without warranty, expressed or implied. Manufacturer's and seller's sole obligation shall be to replace that portion of the product shown to be defective. Neither shall be liable for any loss, damage or injury, direct or consequential, arising out of the use of this product.
