Jet Spray Wash

General Purpose Liquid Detergent

Description

Jet Spray wash is an effective formulation containing a water soluble solvent, and packed with biodegradable wetting agents. This is a combination that gives outstanding performance. It is effective on grease, on oil, on road dirt and mud and on engine grime. Jet Spray Wash attacks, penetrates, dissolves and removes soils quickly and thoroughly. If you are now using two, three, or more different cleaners you may find that Jet Spray Wash will be all you need to stock.

Jet Spray Wash presents no fire hazards, and it is comfortable to work with. It can be used on all metals, plastics, vinyl, and glass. It will not damage well-bonded paint, and actually helps to restore paint luster. Its free rinsing properties eliminate streaking of the painted surface.

- Engine Cleaning
- Interior Cleaning
- High Pressure Cleaning
- Cleaning of Painted
- Steam Cleaning
- Radiator Cleaning
- Concrete Floor Cleaning
- Wheel Cleaning
- Aluminum Cleaning
- Building Maintenance

Method of Use

Application Methods

Jet Spray Wash can be applied by whatever method is most efficient for the cleaning task at hand. With any method, the results are the same—fast, thorough cleaning.

- Steam
- Spray
- Hand Application

Mixing Instructions

- For light duty cleaning, Jet Spray Wash can be used at highly diluted concentrations.
- For the really tough job, more Jet Spray Wash and less water is sufficient.
- Jet Spray Wash can be used at full strength or diluted with up to 100 parts water, depending on the type and amount of soil.

Caution

Refer to product labels and Safety Data Sheets for precautionary and handling information. Product should be stored at no lower than 50°F and no higher than 100°F.
