### LPSS Talented Program Mission Statement

The Lafayette Parish Schools' Talented Program fosters the development of the artistic talents of kindergarten through 12th grade students identified by the Louisiana State Department of Education as having extraordinary talent in Music, Theatre or Visual Art.

Students who have met the state criteria may receive instruction in a specialized enrichment class taught by artist teachers having certification based on their expertise in their field.

Their instruction is not a duplication of the regular curriculum in these areas, but an acceleration and enrichment of the subject through the guidance and mentorship of professionally experienced artists in preparation for a lifelong involvement in the arts.

LPSS students passing a state level screening for artistic talent receive talent education from teacher artists through the Special Education department. TAB recognizes and serves this opportunity for LPSS students through financial support and community integration.
