May, 2019 BIZART, Shreveport, LA
April, 2020 Van Go Art Fair – Cancelled due to Covid

Finally. My inner child...or creative gypsy is totally unleashed. Surprising how calming, yet exhilarating, art is for me after years of being a type A personality. I realize now I was miscast.

I've always had a keen interest in design, photography and art, dabbling in photography of buildings and nature in Northern California in the 70's.

In my role on the Board at the YWCA (2005-2007), was Co-Chair of the Wine Affair and several events, designing all of the collateral displays, videos, and print materials.

My daughter and I started making jewelry in 2008 and applied for acceptance to the Red River Revel and showed for two years.

In 2011, discovered a venue for my daughter's wedding and offered the owner my services to design and publish his first website. When Dick Grieder, Hill County Village expanded to his downtown venue, 421Texas, I added the second website. Both websites are now handled by a web management firm.

I started painting in acrylics in 2015 for relaxation. I concentrated on landscapes of places we went to or camped at like Lake Ouachita in Arkansas and Lake Buchanan in the Texas Hill Country. My other focus was on abstracts based on images from the Hubble telescope of space as well as florals from my garden.

Discovering fluid acrylic art in 2017, I jumped into this medium in earnest in 2018. I'm self-taught, absorbing all the information I can find on this art form to create

Retired in 2018, I relocated to the Tyler area. In 2021, returned to Louisiana to build a metal home in Greenwood.
