Courses in the history of architecture have typically focused on the Western tradition, following a predictable pattern of covering those civilizations that have been considered instrumental in the formation of Western culture.

The Global History of Architecture Series offered by the University of Southern California School of Architecture changes this pattern by looking at the world-wide perspective of history, in all of its textured richness and variegated scope. It is based on a five-part structure to ensure complete coverage. In alphabetical order, this is: (1) Africa, (2) Asia (3) Europe, (4) The Americas (5) West Asia (the area formerly known as the Middle East).

Course Goals and Objectives
1. To provide students with a fundamental understanding and level of literacy in the theories, topics, names, terms and ideas of the historical period being studied.
2. To make students aware of the fact that architecture is the product of social, cultural, religious and political forces and cannot be understood without introducing those issues and studying their place in the historical topic being analyzed.
3. To make students aware of the fact that, at any given point in time, great cultures and civilizations have existed all over the world, not just in one part of it. Cultures and civilizations have interacted and now do so more than ever, which means that there is a great deal more complexity to the world history of architecture than has typically been conveyed by the more conventional, one dimensional, Eurocentric history courses offered in the past.
4. New information and revised theories are constantly emerging on each of the topics presented in this course. It is important to present these to the class as they become available, and every effort is made to do so.

Course Schedule:

Textbook for this Course:

Course Reader. There is a Reader for this Course, which is available digitally.

Copies of Notes for each Lecture will be collected at the beginning of the next Lecture. Guidelines for submitting these notes are described in Course Requirements, below.

January
Th. 16 Prehistoric Architecture,
Reader: Chantal Jeques-Wolkiewiez
    (Her theory is that the gallery of figurative images in the Great Hall represents an extensive star map and that key points on major figures in the group correspond to stars in the main constellations as they appeared in the Palaeolithic Period. This is a new discovery)

**Course Requirements and Grading**

Examination #1: 15%
Examination #2: 15%
Term Paper: 25%
Final Examination: 30%
Class Participation: 15%

This includes the submission of a copy of notes taken in each previous lecture. These can be handwritten or typed, and can be in outline form.

**Attendance Policy**

If arriving late, a student must be respectful and do everything possible to minimize the disruption caused by a late arrival.

It is always the student’s responsibility to make up work missed due to absences, not the instructor’s.

Missing more than the equivalent of one week of class (two absences) will have a significant effect on the student’s grade. Unless due to exigent circumstances, late papers shall not be accepted, and a mark of F shall given for that assignment.

**Statement for Students with Disabilities**

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to me (or to TA) as early in the semester as possible. DSP is located in STU 301 and is open 8:30 a.m.–5:00 p.m., Monday through Friday. The phone number for DSP is (213) 740-0776.

**Statement on Academic Integrity**

USC seeks to maintain an optimal learning environment. General principles of academic honesty include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one’s own academic work from misuse by others as well as to avoid using another’s work as one’s own. All students are expected to understand and abide by these principles. *Scampus*, the Student Guidebook, contains the Student Conduct Code in Section 11.00, while the recommended sanctions are located in Appendix A: [http://www.usc.edu/dept/publications/SCAMPUS/gov/](http://www.usc.edu/dept/publications/SCAMPUS/gov/). Students will be referred to the Office of Student Judicial Affairs and Community Standards for further review, should there be any suspicion of academic dishonesty. The Review process can be found at: [http://www.usc.edu/student-affairs/SJACS/](http://www.usc.edu/student-affairs/SJACS/).

“The USC School of Architecture’s five year BARCH degree and the two year M.ARCH degree are accredited professional architectural degree programs. All students can access and review the NAAB Conditions of Accreditation (including the Student Performance Criteria) on the NAAB Website, [http://www.naab.org/accreditation/2004_Conditions.aspx](http://www.naab.org/accreditation/2004_Conditions.aspx).”
