Introduction:  
Arch 214 B presents an overview of the history of architecture from the middle of the 16th Century up to the present from a global perspective. It is based on a five-part structure to ensure complete coverage. In alphabetical order, this is: (1) Africa (2) Asia (3) Europe (4) The Americas (5) West Asia. For clarity, this part of the survey will be divided into chronologically coherent groupings, related to discernable similarities.

Learning Objectives:  
1. To make students familiar with the history of the architecture of a wide cross section of global cultural traditions, including the way in which architecture was or is practiced, institutions were established and operated, and ideas were disseminated. To do so, it is necessary to make students aware of the fact that architecture is the product of social, cultural, religious and political forces and cannot be understood without introducing those issues and studying their place in the civilization or national history being analyzed. At any given point of time in the past, great cultures and civilizations have existed all over the world. These cultures and civilizations interacted and were interconnected. This means that there is a great deal more texture and complexity to world history that has typically been conveyed by the more conventional, Eurocentric history course offered in the past.  
2 .To allow students to understand how these traditions, practices and institutions were or are historically transmitted.  
3. To have students become familiar with the significant architects and theoreticians, groups and leaders of each culture and tradition, and to provide students with a fundamental level of literacy in the topics, names, terms and ideas of the historical period being studied.  
4. Read and analyze the significant texts that are a part of each of these histories and traditions.  
5. Understand the continuity between the past examples of each tradition and their later manifestations.  
6. To make students aware of the integral connection between architecture and the environment and the fact that people in the past had a more finely attuned relationship with the natural environment and their local context than we do today. They built in direct response to these factors. We have a great deal to learn from this traditional wisdom, and must approach the study of it with respect, rather than dismissing it as quaint and primitive.
To achieve these objectives, students will:
1. Cover materials from a substantially long period that includes both originating works and institutions and the later works that were influenced by them.
2. Read primary sources.
3. Address the ways in which new cultural and historical contexts affect the development of ideas, practices and institutions.
4. Explore the different perspectives by which works and ideas have been analyzed in different eras, countries and cultural contexts.

Attendance Policy / Quizzes
Any student not in class within the first 10 minutes is considered absent, and any student absent (in any form including sleep, technological distraction, or by leaving mid class for a long bathroom/water break) for more than 1/3 of the class time can be considered fully absent. If arriving late, a student must be respectful of a class in session and do everything possible to minimize the disruption caused by a late arrival.

Quizzes are given as a means of evaluating student understanding of the lectures as well as recording attendance. Two missed quizzes (unexcused absences) are allowed without penalty. Except in the case of extenuating circumstances, makeup quizzes will not be given.

Missing more than the equivalent of one week of class (two absences) will have a significant effect on the student’s grade.

General rule:
Anything that detracts from a fellow student’s learning experience or ability to assimilate the information being presented, such as talking during lectures, disruptive behavior, eating during class, talking on cellphones and so on, will result in a request to leave the class.

Grade Scale
4.0 = 97.0 - 100 = A+ (grade of A and Commendation)
4.0 = 93.0 - 96.9 = A
3.7 = 90.0 - 92.9 = A-
3.3 = 87.0 - 89.9 = B+
3.0 = 83.0 - 86.9 = B
2.7 = 80.0 - 82.9 = B-
2.3 = 77.0 - 79.9 = C+
2.0 = 73.0 - 76.9 = C
1.7 = 70.0 - 72.9 = C-
1.3 = 67.0 - 69.9 = D+
1.0 = 63.0 - 66.9 = D
0.7 = 60.0 - 62.9 = D-
0 = <60.0 = F

NAAB Student Performance Criteria Addressed
A.7 Use of Precedents
A.9 Historic Traditions and Global Culture
A.10 Cultural Diversity
Student mastery of SPCs constitutes 80% of student grade in all areas listed above.

Statement on Academic Conduct and Support Systems
Academic Conduct
Plagiarism – presenting someone else’s ideas as your own, either verbatim or recast in your own words – is a serious academic offense with serious consequences. Please familiarize yourself with the discussion of plagiarism in SCampus in Section 11, Behavior Violating University Standards. Other forms of academic dishonesty are equally unacceptable. See additional information in SCampus and university policies on scientific misconduct.

Discrimination, sexual assault, and harassment are not tolerated by the university. You are encouraged to report any incidents to the Office of Equity and Diversity or to the Department of Public Safety. This is important for the safety whole USC community. Another member of the university community – such as a friend, classmate, advisor, or faculty member – can help initiate the report, or can initiate the report on behalf of another person. The Center for Women and Men provides 24/7 confidential support, and the sexual assault resource center webpage describes reporting options and other resources.

Support Systems
A number of USC’s schools provide support for students who need help with scholarly writing. Check with your advisor or program staff to find out more. Students whose primary language is not English should check with the American Language Institute, which sponsors courses and workshops specifically for international graduate students. The Office of Disability Services and Programs provides certification for students with disabilities and helps arrange the relevant accommodations. If an officially declared emergency makes travel to campus infeasible, USC Emergency Information will provide safety and other updates, including ways in which instruction will be continued by means of blackboard, teleconferencing, and other technology.
