

Trauma and Mental Health Informed Schools and Communities **TINY TRAININGS**

NEW short trainings designed to help with the demands and challenges faced by those working with children and young people. We understand the seemingly impossible task of meeting the needs of both children and adults while working within budgetary and time constraints.

These expert-led sessions are **short yet impactful**, equipping you with **practical strategies and accessible theory** to enhance well-being and support through a **trauma-informed lens**. Whether you work in education, youth and social work, or a community setting, there's something for everyone.

The topics will continue to develop and grow in response to your needs. We are starting with:

- ➔ **Leading with Empathy**
Practical leadership skills to drive positive change with empathy.
- ➔ **Help! I'm in Education, get me out of here!**
Mitigating the potential of burnout in a job where the challenge gets bigger and resources get fewer.
- ➔ **Supporting the Strugglers: stories behind the empty desk.**
Helping children who can't attend.

Let us know what else you want!
