PROJECTS

Personality prediction using social media data

09/2023 - Present

I can predict your personality based on your Twitter posts. This could be useful for matching you with the right job, finding you a compatible partner, or identifying people at risk for mental health problems.

Chat App

<https://chatomic-chat1.vercel.app/>

Chatomic - the ultimate chatting experience! It's made using MERN stack (MongoDB, Express.js, React, Node.js) and powered up by Socket.io. This means you get super-fast messaging that's as quick as lightning. Easily stay connected with friends and family.

Freelancehive

<https://freelancehive.vercel.app/>

A blog dedicated to freelancing, like Freelancehive, serves as a valuable resource for freelancers and those interested in the freelance industry.

Plot Chart

<https://plotchart.streamlit.app/>

PlotChart is a web application created by the Python library Streamlit that allows users to see various sorts of plots and charts by uploading a suitable Excel or CSV file.

Notejoy

<https://notejoy.vercel.app/>

Notejoy is a note-taking app that makes it easy to capture thoughts, ideas and important information. It's built with Next.js 14, Tailwind CSS and TypeScript it's designed to be user-friendly and easy to use.

JustforFoodies

<https://justforfoodies.vercel.app/>

JustforFoodies is a food ordering UI website. Order your favorite meals anytime, anywhere. A user-friendly platform for food enthusiasts.
