List of critical illnesses

This document is an integral part of the **Terms of Service** and the Agreement concluded between you and us. All capitalised terms not defined here have the same meaning as specified in the Terms of Service.

You acknowledge and accept that the Membership fee does not entitle you to access and use the Services for curing, managing or handling health issues, symptoms or questions related to these critical illnesses (each illness referred to as a "Critical illness"), unless your Health plan specifically includes coverage for Critical illnesses. If you wish to use Services for Critical illnesses, you may continue using the Services, but we are entitled to charge fees or request to reimburse our cost related to rendering Services in connection with the Critical illness. If your Health plan covers treatment of Critical illnesses, you can use the Services for Critical illnesses within the Coverage Limits provided our Agreement does not limit the use of Services (for example, Carve-out event occurs).

You acknowledge and accept that each illness below is a Critical illness, as may be determined by the Medical team:
