

## Contacting Dr. Gentile

The regular business hours are Monday through Friday, 9am – 5pm. Dr. Gentile will schedule appointments outside of business hours on a case-by-case basis.

If you have emergent symptoms such as chest pain or difficulty breathing, please call 911 immediately. For all urgent and non-urgent needs that occur during business hours, please call the main office phone number for members of the practice at 412-837-0474. If Dr. Gentile does not answer, she is probably with a patient; please leave a message, and she will return your call as soon as possible.

Non-urgent issues may also be communicated via email during regular business hours. Refill requests must be communicated during the work week. For urgent medical issues that occur outside of regular business hours, please call or text Dr. Gentile at 412-837-0474
