BRIDGE TO HEALTH, P.A.

LAB SERVICES

At Bridge to Health, P.A. there will be select labs performed in-office and sent out through vendors at negotiated lower prices. Those who are members get a discounted price. Except where noted, the patient is responsible for cost of labs and shall be advised of the cost in advance. Patients do have the option to have labs performed at outside facilities of their choice and are not required to have testing performed at Bridge to Health, P.A. or by selected vendors. Patients may also have insurance that will cover some or all required testing. It is the patient's responsibility to determine whether such coverage exists and any terms or requirements of coverage. For patients with insurance, these tests will be billed to insurance by the lab in the usual manner. For those without insurance, there is typically a discounted cash option available at the outside lab facility.
