OCTOBER 6-10

BRAVE HORSE
EQUESTRIAN CENTER

USEF 6*
REGIONAL II

Dear Friends,

I am thrilled to have you join us for another year of the Split Rock Jumping Tour.

The sport of show jumping has been rapidly evolving over the past several years and our mission is to change the way competitors, sponsors, and spectators experience a horse show in the United States. Looking back through our first six years, we have seen some of the world's top riders support our innovative concept by returning show after show.

We are continuously striving to find new ways to make the entire show experience the absolute best it can be. I personally promise that I will continue to learn from not only the continual evolution of our sport but from your much needed feedback as we establish SRJT as one of the premier horse show management teams in America.

I want to personally thank you for being a part of this new show jumping movement and I look forward to seeing you at the 2021 Split Rock Jumping Tour!

Sincerely,

A handwritten signature in black ink, appearing to read "Derek Braun".

COMPETITOR DETAILS & REQUIREMENTS

Each competition must be conducted in accordance with the FEI rules and applicable USEF rules. Entry into the competition represents acknowledgement and acceptance, with no appeal, to these competition rules for all classes.

ENTRIES

A separate entry form (online, print, email) must be filled out for each horse. Each entry must be signed by the owner, rider, trainer, and coach (if applicable) and said signatures shall constitute verification that the information contained thereon is accurate to the best of the signer's knowledge and belief.

Deposit must be paid with each entry, and an open check or credit card must be on file in the show office before back numbers will be issued.

Entries and Stalls will be limited. Permanent stalls cannot be guaranteed to any competitor. Competitors are encouraged to get their entries in early. Entries received after stalls have sold out will be placed on a waitlist in order of received entries. Late entries (received after the closing date) will be charged a \$50 late entry fee. Under extreme circumstances, management reserves the right to accept or deny any entry.

Any entry scratched after the closing date is responsible for stabling and \$50 scratch fee. Under certain circumstances and/or veterinary verification letter, SRJT management reserves the right to enforce or waive fees.

All horses must pay an office fee of \$75. This office fee also permits each horse to properly add/scratch regular classes. There are no same day adds, but classes may be scratched in the office prior to the start of the class. Scratching at the in-gate does not scratch the class and the class fee will still be charged. If a horse is shown in a class it was not properly entered in, it will be charged a \$25 Ride Did Not Enter (RDNE) fee in addition to the class fee. Entries can be done by 3pm through the app or in the office until 4pm.

NIGHTWATCH

All horses occupying a stall will be required to pay a flat night watch fee of \$15. No exceptions. Please provide contact name and cell phone number on the stall.

All horses are required to pay a Paramedic Fee of \$20 and a Horse Ambulance fee of \$15. No exceptions.

NON-SHOWING

All horses on the grounds must have a completed entry in the office, complete with signatures. Non-show horses must pay for the office, nightwatch, paramedic, and horse ambulance fees as their non-showing fee. Scratched horses present on the grounds are considered non-showing.

MOVE IN/OUT

Move in for the Columbus International will be Monday, October 4 at 8am. Move out is Monday, October 11 at 10am. Anyone arriving early or staying late will be assessed

a \$50/stall/day fee. For early arrival/late departure requests contact Kaitlin at kaitlin@splitrockjumpingtour.com.

CHECKOUT

You must close out your account no later than Sunday of the show. If you wish for the office to close your account, we will be happy to do so. Please leave clear instructions as to whose check or credit card to use for each horse. Starting Sunday morning, checking out through the app will be available. Please look over your statement and report any errors to a secretary immediately as to horse's name, riders, owners, addresses, association numbers, etc. Please double check that the Payee for prize money is correct with the correct address.

PRIZE MONEY

Prize money is NOT applied to the invoice at the show. All prize money is mailed within thirty (30) days of the conclusion of the show to the owner listed on the entry form, or the Payee if given. Prize money will only be mailed if the owner's or payee's W-9 Form is on file with the show office, and all balances are paid. Foreign competitors must include a U.S. Tax ID Number on their entry form or will be asked to complete a W-8BEN or W-8 Certificate of Foreign Status Form.

ORDER OF GO

All classes in the Main Arena will have set orders of go. Unless specified, classes in all other rings will be done by check in at the in-gate or on the app. Orders of Go are produced in accordance with JP 112. Orders of Go are available at the Show Office, at the ring, and on the App.

SALUTE

Upon entrance into the arena for each class, all riders must salute the Class Sponsor (if applicable).

PRIZE CEREMONY

All riders and horses receiving ribbons 1st-8th place are Required to be present and participate in all prize ceremonies. This applies to National Jumper and FEI classes. Grooms for the top three(3) placing horses of each class will accompany the competitor/horse onto the field to be present to hold the horse during the rider podium portion of the ceremony.

Please note: for the safety of all horses, competitors, and spectators, plan for an alternate mount if your placing horse is unsuitable to participate in ceremonies and victory gallops.

LEASH LAW

Dogs must be on a leash and under control at all times. Dog owners who fail to comply with the USEF rules regarding dogs may be subject to penalty, including \$100 fine per incident, and/or warning cards issued. Dog owners are solely responsible for any damages, claims, losses, or actions resulting from their dog's behavior.

MOTORIZED VEHICLES

Golf carts must stay off horse path. Minors who do not have a valid driver's license which allows them to operate a motorized vehicle in the state in which they reside will not be permitted to operate a motorized vehicle of any kind, including, but not limited to, golf carts, motorcycles, scooters, or farm utility vehicles, on the competition grounds of licensed competitions. Minors who have a valid temporary license may operate the above described motorized vehicles as long as they are accompanied by an adult with a valid driver's license. The parent/legal guardian or individual who signs the entry blank as a parent or guardian of a minor operating a motorized vehicle in violation of this rule are solely responsible for any damages, claims, losses or actions resulting from that operation. Violations of this rule will be cause for penalties against those responsible for the child committing the offense.

Wheelchairs and other mobility assistance devices for individuals with disabilities are exempt from this rule.

The unsafe use of personal electronic transport devices, as determined by the competition officials and management in their sole discretion, that do not require a driver's license to operate, including but not limited to segways, hover boards, and single wheeled scooters is prohibited on competition grounds. Operating such devices in areas where people gather may be deemed "unsafe use" if there is a risk of harm to others. If the operator of the device is a minor, the parent/legal guardian or individual who signs the entry blank as a parent or guardian of a minor operating the device in violation of this rule is accountable and may be subject to penalties. Wheelchairs and other mobility assistance devices for individuals with disabilities are exempt from this rule.

LIABILITY

Under Ohio law, a farm animal activity sponsor, farm animal professional, or other person does not have the duty to eliminate all risks of injury of participation in farm animal activities. Split Rock Jumping Tour, its owner, employees, agents and sponsors shall not be liable or responsible for loss or damage to any animal, person, or property which occurs for any reason during the show. Each exhibitor holds the SRJT Show Management, its owners, agents, employees, as well as the USEF blameless for any accident or loss which may occur.

NATURE'S LIGHT

Delivered using smart Stable Lights and award-winning Light Masks.

Health.
Performance.
Well-being.

Horses need light for far more than just vision. The constantly repeating cycles of dawn and dusk synchronise an internal clock system that coordinates all bodily functions to a 24-h (daily) and 365-day (annual) rhythm. Blue light is the most biologically effective light responsible for regulating an animal's internal rhythms. The Equilume Performance Lighting system comprises fully automated intelligent Stable Lights and mobile Light Masks that exploit the benefits of the blue wavelength light for horses.

CORRECT LIGHTING IMPACTS PHYSIOLOGY AT THE CELLULAR LEVEL

It is hard to believe that a lighting system can impact so many aspects of a horse's health and welfare. Dr. Barbara Anne Murphy, Founder & CSO at Equilume, explains: "Normal indoor lighting falls significantly short on providing the optimum light spectrum for horses to function well. The Equilume Stable Light and Light Mask were specifically designed to stimulate cells that drive strong, healthy rhythms throughout the horse's body.

The goal is to provide the horse with lighting that best reflects and mimics the benefits of the natural environmental day-night cycle. This is essential to generate and maintain circadian rhythms that ensure optimum health and performance. Our research results as well as feedback from clients are very exciting; horses thrive under this system - they put on more lean muscle, increase appetites, improve behaviour and focus during training sessions, coat condition blossoms and are healthier overall."

Get in touch for more information or to arrange for a free lighting consultation.

"Equilume light masks keep our performance horses in top condition and their coats glowing! Even with an extended break from competition over the winter, the blue light helped maintain their muscle tone and they came back in to work looking a million dollars."

Chris & Gabbi Chugg, Chuggy Equestrian, AUS

"After just 3 weeks of using the Cashel Light Mask, I saw a remarkable improvement in the horse's attitude and willingness to enjoy his work. The logic of more light for a stabled horse makes sense to me, and with this trial I was able to see the results. I am excited about what benefits the Equilume lights will have for all my horses."

Are there any reasons why I should not use products within the Restylane[®] family? (Contraindications)

To ensure a safe procedure, your doctor will talk to you about your medical history to determine if you are an appropriate candidate for treatment. You should not use products within the *Restylane*[®] family if:

- You have severe allergies with a history of severe reactions (anaphylaxis)
- You are allergic to lidocaine or to any of the gram-positive bacterial proteins used to make hyaluronic acid
- You are prone to bleeding or have been diagnosed with a bleeding disorder

Are there other precautions that I should discuss with my doctor?

- Tell your doctor if you are breastfeeding, pregnant, or trying to become pregnant. The safety of these products for use during pregnancy, or in women who are breastfeeding, has not been studied
- *Restylane*[®], *Restylane-L*[®], *Restylane*[®] *Lyft with Lidocaine*, *Restylane*[®] *Refyne* and *Restylane*[®] *Defyne* are intended to treat facial wrinkles and folds, such as nasolabial folds. *Restylane*[®] and *Restylane-L*[®] are also intended for lip enhancement. *Restylane*[®] *Lyft with Lidocaine* is also intended for injection in the dorsal hand to correct volume loss. Treatments in other areas of the face or body have not been evaluated in clinical studies.
- The safety and effectiveness of *Restylane*[®] *Silk* for areas other than the lips and perioral area have not been evaluated in clinical studies.

- Tell your doctor if you have any history of scarring, particularly thick and stiff scars, or any pigmentation (skin color disorders). These side effects can occur with hyaluronic acid fillers in general.
- Tell your doctor if you are planning other laser treatments or a chemical peel, as there is a possible risk of inflammation at the treatment site if these procedures are performed after treatment
- Patients who experience skin injury near the site of injection with these products may be at a higher risk for side effects
- Tell your doctor if you are on any medications to decrease your body's immune response (immunosuppressive therapy). Using these medications may increase your risk of bruising or bleeding at the gel injection site.
- Tell your doctor if you are using any "blood thinners" such as aspirin, warfarin, or any other medications that affect bleeding. Using these medications may increase your risk of bruising or bleeding at the gel injection site.
- The use of these products on gel injection sites with skin sores, pimples, rashes, hives, cysts, or infections should be postponed until healing is complete. Use of product in these areas could delay healing or make your skin problems worse.
- Tell your doctor if you have diseases, injuries, or disabilities of the hand.

What are the possible side effects?

The most commonly observed side effects are swelling, redness, pain, bruising, headache, tenderness, lump formation, itching at the injection site, and impaired hand function. These are typically mild in severity and typically resolve in less than 7 days in nasolabial folds and less than 14 days in lips. Serious but rare side effects include delayed onset infections, recurrence of herpetic eruptions, and superficial necrosis at the injection site.

One of the risks with using this product is unintentional injection into a blood vessel. The chances of this happening are very small, but if it does happen, the complications can be serious, and may be permanent. These complications, which have been reported for facial injections, can include vision abnormalities, blindness, stroke, temporary scabs, or permanent scarring of the skin.

As with all skin injection procedures, there is a risk of infection.

To report a side effect with any of the Restylane products, please call Galderma Laboratories, L.P. at 1-855-425-8722.

The *Restylane*[®] family of products is available only through a licensed practitioner. Complete Instructions for Use are available at www.RestylaneUSA.com.

Restylane
KYSSE™

Actual patient. Individual results may vary.

Introducing our most kysse-able product yet, Restylane® Kysse—

a lip filler for natural-looking volume and kissable softness.¹

Important Safety Information

Indication: Restylane® Kysse is indicated for injection into the lips for lip augmentation and for correction of upper perioral rhytids in patients over the age of 21.

Restylane Kysse contains traces of gram-positive bacterial protein and is contraindicated for patients with allergies to such material or for patients with severe allergies that have required in-hospital treatment. Restylane Kysse should not be used by patients with bleeding disorders, with hypersensitivity to amide-type local anesthetics, such as lidocaine, or by women who are pregnant or breastfeeding.

Use of Restylane Kysse at the site of skin sores, pimples, rashes, hives, cysts, or infection should be postponed until healing is complete. The most commonly observed side effects are swelling, tenderness, bruising, pain, and redness at the injection site. These are typically mild in severity and usually resolve

within 7 days after treatment. Serious but rare side effects include delayed onset infections, recurrence of herpetic eruptions, and superficial necrosis and scarring at the injection site. Do not implant into blood vessels. Use with caution in patients recently treated with anticoagulant or platelet inhibitors to avoid bleeding and bruising.

Treatment volume should be limited to 1.5 mL per lip per treatment and 1.0 mL for upper perioral rhytid correction, as greater amounts significantly increase moderate and severe injection site reactions. The safety or effectiveness of treatment in areas other than lips and upper perioral rhytids has not been established in controlled clinical studies.

Restylane Kysse is only available through a licensed practitioner. Complete Instructions for Use are available at www.RestylaneKysse.com.
