+ EXPERIENCE

- Present**
08/21
- Kantar**
Lead Software Engineer
Microsoft Devops, Angular
- Manage two UI teams across three continents spanning work across 4 applications by creating user stories, performing code reviews and coordinating required work by back end teams.
- Updated all the applications to the latest version of Angular.io and the last version of AngularJS for 3rd party extended long term support.
- 08/21
12/20
- Ntrepid**
Sr. UI Engineer
Vue 2/3, Vuex, PrimeVue, Axios, Apollo GraphQL, Hasura, Nightwatch, Python
- R&D development of a tool to be used by agents in the CIA
- Green field development of a tool converted from Vue v2 to v3
- Perform standard CRUD operations via Axios and query/mutations with GraphQL
- 12/20
05/18
- r4 Technologies**
Sr. UI Engineer
Angular, NgRx, RxJS, PrimeNG, D3, TypeScript, Highcharts, Storybook, Karma, Jasmine
- Angular development of a new cross enterprise web application to leverage big data
- Worked TDD to produce consistent, optimized well tested code for SPA applications
- Experienced in producing beautiful, cross browser code from design to production
- 05/18
04/17
- Jobs2Careers**
Sr. Software Engineer
Angular, Angular Material, TypeScript, RxJS, Karma, Jasmine
- Design the UI/UX for customers and internal support staff to manage jobs, job campaigns
- Written in Angular, Angular Material with tests in Karma/Jasmine
- Develop a responsive, cross browser interface that works well with both small and large datasets
- 04/17
10/16
- Lifesize**
Contractor
AngularJS, Angular Material, D3
- Reworked the administrative console application for the flagship teleconferencing product
- Added the use of ui-router, template caching, SASS files and the necessary grunt tasks
- Added D3 graphs on a user dashboard
- Created, mocked and automated unit tests to review code coverage with Jasmine/Karma/Grunt
- 09/16
07/14
- Revionics**
Sr. Software Engineer
AngularJS, Angular Material, C#, ASP.MVC, SASS, JavaScript
- Migrated new promotion features to an angular SPA from a ASP MVC web site
- Designed UI elements with the use of SASS and the Angular Material design
- Contributed to numerous releases in an Agile environment
- 12/13
05/11
- ShoreTel**
Lead Software Engineer
Ruby, Rails, Rspec, Rake, jQuery, Flash, Flex
- Wrote a network diagnostic application with Ruby/Rails in a TDD environment
- Wrote a Ruby/Rails/MySQL back end that works with a Flash/Flex front end to visualize the network of switches, servers and IP phones. Administrators can get a network or site-wide view of badly performing devices through color coded, real time statues in a dynamic parent-child radial diagram.

+ TECHNICAL SKILLS

Angular
Vue
React
HTML, CSS, SASS
JavaScript, TypeScript, jQuery
ASP MVC, ASP.NET, C#, IIS
Ruby on Rails
SQL Server, MySQL, Oracle
Git, Bitbucket, Jira

+ ACCREDITATIONS

B.S. Electrical Engineering - University of Missouri
Society of Engineers - Certified Engineer in Training

B.A. Physics - University of Missouri-Rolla
Minor in Applied Mathematics

B.A. Actuarial Science - Maryville University
Society of Actuaries - 5 exams passed

Post Graduate Certificate - University of Texas at Austin
Artificial Intelligence & Machine Learning

US Patent #9,258,195
Logical Topology Visualization

Legacy Certifications
Microsoft MCSE, MCSD
Adobe Cold Fusion Certified
