Gentlemen:

Thank you for your letter of March 7th, contents of which I have duly noted. I am gratified to know that you would be glad to do what you can to assist us in securing shipping space from this country, for the shipment of various religious articles.

We have two principal representatives in London and Paris, which serve as centers for our contact with Jewish communities in European countries. As a first shipment, we have in mind, several thousand books, including many of our publications, several hundred pairs of Tefillin, Talaisim, etc.

While appreciating your efforts in this direction, it is hardly necessary to point out that the need is so great, that every possible facility should be procured to meet the urgent demand.

We shall be glad to hear from you further in this respect.

Sincerely yours,

M. Schneerson
