Blessing and Greeting:

I was pleased to receive your letter, in which you state that the condition of your eyes has improved, and may G-d grant that it should improve even further, and that your physician should be successful in his treating you.

I was especially gratified to read in your letter that you recognize and appreciate G-d's kindness to you. Needless to say, that one of the practical ways of showing such appreciation is by conducting your daily life in accordance with His laws, which He gave us in the Torah, the Law of Life. It is also necessary to use ones utmost influence on the environment in that direction. All this increases the channels and vessels to receive and hold G-d's blessings.

Wishing you a Chasimo ugnar chasimo toivo,

With blessing,

By
