Blessing and Greeting:

I received your letter of July 9th, and, as requested, I will remember your brother Azriel in prayer. Needless to say that you and all those interested in his health can do a great deal for him by making additional efforts in matters of Torah and Mitzvoth, since they are the channels and vessels to receive G-d's blessings for the whole family.

It would be good that your brother should set aside a couple of cents for Tzedoko before putting on the Tefillin every weekday morning, and that the Mezuzoth in his house should be checked, and you, as the petitioner, should observe the custom of good Jewish daughters to set aside a couple of cents for Tzedoko before lighting the Shabbos candles.

With blessing,
