By the Grace of G-d
In the Days of Selichoth,
5721. Brooklyn, N. Y.

Blessing and Greeting:

In addition to the blessing for the New Year, I want to write to you especially in connection with the Psak Din and the doctor's opinion on the question of pregnancy.

You write that the use of a cap is not a sure safeguard. However, in your case it has been effective in the past, and therefore I cannot see why you should be apprehensive about it in the future. Nevertheless, if you will present this question, like any other Shaala, to a competent Rov, telling him also about the doctor's opinion, he will no doubt give a Psak Din, which will correspond to a Psak Din which was given here in a similar case, offering three solutions, namely: (a) The use of a diaphragm (b) Taking pills (c) Delaying Tevila. It is, of course, possible to combine all three.

May G-d, Whose benevolent Divine Providence extends to every one individually, lead you in the way that is truly good for you in every respect.

With blessing,

M. Schneerson
