London, E. 5.

Sholom uBrocho:

I received your letter of Tammuz 24th. In the meantime you must have received my letter in reply to your previous correspondence.

I was pleased to read that there has been an improvement in the health of your wife and children, and may G-d grant that they and you enjoy good health henceforth.

You do not mention anything about your participation in 12-13th of Tammuz Farbrengen. This is surely only an omission in writing, as undoubtedly you duly observed this auspicious date and anniversary and have been lastingly inspired.

In connection with your recent birthday, I wish you a successful year in all your affairs, both personal and general, materially and spiritually.

With blessing,

M. Schneerson
