Dear Rabbi Sufrin,

In reply to your letter of Teveth 24 concerning the desire of staff members as well as students of the educational institutions to visit Lubavitch in New York, while school is in session, it goes without saying that they must have the full permission of the Administration.

In considering each individual request, the Administration will undoubtedly be cognizant of the possible advantages resulting from such visits, when the visitor shares their reminiscences and the impact of that which they have seen and heard in Lubavitch with students and friends.

It is certainly important that visiting students bring a school report regarding their status and progress in their studies. (א'ב'ג'ד')

With all good wishes,

Very sincerely,

Rabbi M.A. Hodakov
