Sholom uBrocho:

I was pleased to receive your letter in which you write that you heard of my latest message that children can achieve very much - for their own benefit, and for the benefit of their beloved ones, and all our Jewish people - by studying the Torah with lebedikeit and devotion and conducting themselves in accordance with the Torah and Mitzvos.

I was especially pleased to read in your letter that you have put this suggestion in actual practice.

May G-d grant that you should do this in a growing measure and be a living example to all your friends, in addition to speaking to them and encouraging them to do the same.

With blessing for Hatzlocho
and good news

M. Schneerson
