Rainwater Enters ASI Excavation Site in Adichanallur

Recent seasonal downpours in the Srivaikuntam region led to rainwater flooding the excavated trenches and ancient burial urns at the Archaeological Survey of India (ASI) 'C' site in Adichanallur due to delays in constructing a protective shelter.

Adichanallur is a globally renowned prehistoric urn-burial archaeological site situated along the Tamirabarani river basin in Thoothukudi district, Tamil Nadu, reflecting an advanced Iron Age civilization.

KEY EXAM POINTS

- Recent showers in the **Srivaikuntam** region caused rainwater to flood the trenches and urns at the 'C' excavation site of the **Archaeological Survey of India (ASI)** in Adichanallur.
- Senior **ASI** officials attributed the delay in constructing the protective shelter to procedural formalities, including obtaining necessary approvals and finalizing the tender process.
- Work on the long-delayed **protective shelter** project has recently commenced with the installation of iron pillars at the site.

DID YOU KNOW..!?

Adichanallur is located in Thoothukudi district on the banks of the **Tamirabarani** river in Tamil Nadu.

German ethnologist and naturalist **Jagor** performed initial excavations at Adichanallur in the year **1876**.

British archaeologist **Alexander Rea** conducted extensive excavations at Adichanallur and published valuable findings in **1915**.

Union Budget 2020-21 declared **Adichanallur** as one of the five iconic archaeological sites to be developed as 'site museums' in India.

Artifacts discovered at Adichanallur include bronze objects, gold ornaments, iron weapons, and a large number of **urn burials** containing human skeletal remains.

The **Archaeological Survey of India (ASI)** functions as an attached office under the **Ministry of Culture**, Government of India.

REVISION FLASHCARD

Adichanallur, an iconic archaeological urn-burial site, is located on the banks of the Tamirabarani river in Thoothukudi district.

Syllabus Relevance: Crucial for Unit 8 (Tamil Nadu History, Culture, Heritage and Socio-Political Movements) covering archaeological sites and historical excavations.
