

## Description

Myst is a motion-activated, atomizing diffuser that plugs into any wall. This small, flexible, and effective diffuser transforms your atmosphere effortlessly using waterless and heatless technology. It's also a nightlight. The diffuser creates a fine mist that stays in the air. Myst adapts to any wall socket, never needs recharging or batteries, and leaves no residue. It's customizable too, with three settings—motion-sensing, timed-interval, and manual. Myst also has a Dark Mode, where the light is off and the diffuser continues to spray. No need to clean or refill every day, just twist on a bottle of your favorite dōTERRA CPTG® oil or blend, plug it into any outlet, and let Myst do all the work.

*See diffuser manual and product label for cautions and instructions.*
