60227271

Rose Hydrosol Mist is also available with Moringa Rose Nourishing Oil.

60227278

Primary Benefits

- + Soothes and calms the skin due to geraniol, based on preclinical research
- + Provides light moisture and cooling hydration
- + Refreshes tired complexions
- + Brings the beautiful aroma of roses into your natural skincare routine

Description

Beauty experts have known a secret since ancient times, hydrosols have calming and nourishing properties that soothe and refresh tired skin. Like a cool drink of water for all skin types, dōTERRA Rose Hydrosol Mist is an instant pick-me-up for your face with a light, rosy-floral aroma. According to preclinical research, geraniol, a component of this hydrosol, helps make it a comforting addition to any skincare routine. It helps hydrate and revitalize dry, tired skin and gives the complexion a healthy-looking radiance. Use on clean, bare skin as a first step in your morning skincare regimen and the last step every evening. The mist also provides a dewy finish after makeup application. Spray the hydrosol on the neck, body, or hair anytime for an instant refresh. Pair Rose Hydrosol Mist with Moringa Rose Nourishing Oil for additional moisturizing benefits.

Hydro-steam distilled Rose Hydrosol Mist comes from the dōTERRA distillation facility in Bulgaria, Terra Roza, where Bulgarian Damask roses are used to make CPTG® Rose essential oil.

Uses

- + Add to your morning and night facial routine.
- + Mist face, body, and hair throughout the day for a refreshing boost of hydration.
- + Apply for a light, rosy-floral personal aroma.
- + Pair with Moringa Rose Nourishing Oil for an additional soothing effect.

Directions

Topical use: Spray 8-10 inches from face, body and hair as desired. Can be used as toner before and after makeup application.

Cautions

Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, and sensitive areas. Keep at room temperature. External use only.
