## Comparing Decimals

## Which number is greater?

1. Which number is greater?
$\square 1.14$
$\square 2.41$
2. Which number is greater?
$\square 3.12$
$\square 3.91$
3. Which number is greater?
$\square 0.05$
$\square 0.5$
4. Which number is greater?

0.2
$\square 0.02$
5. Which number is greater?
$\square 7.65$
$\square 7.15$
6. Which number is greater?
$\square 8.21$
$\square 82.1$
7. Which number is greater?
$\square 5.43$
$\square 5.34$
8. Which number is greater?
$\square 12.105$
$\square 12.01$
9. Which number is greater?
$\square 17.21$
$\square 17.02$
10. Which number is greater?
$\square 6.07$
$\square 6.47$
