## GPCR GPR43 / FFAR2 Antibody

Catalog Number: P-FFAR2.1

### General Product Information

|                              |                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product</b>               | GPCR GPR43 / FFAR2                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Description</b>           | Affinity Purified FFA2R antibody, FFA2R antibody, Ffar2 antibody, FFAR2_HUMAN antibody, free fatty acid activated receptor 2 antibody, free fatty acid activated receptor 2 antibody, Free fatty acid receptor 2 antibody, G protein coupled receptor 43 antibody, G protein-coupled receptor 43 antibody, G protein-coupled receptor 43 antibody, G-protein coupled receptor 43 antibody, GPR 43 antibody, GPR43 antibody, Antibody |
| <b>Verified Applications</b> | Immunodepletion, Immunocompetition                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Immunogen</b>             | Synthetic peptide taken within amino acid region 250-300 on human free fatty acid receptor 2 protein.                                                                                                                                                                                                                                                                                                                                |

### Physical Properties

|                            |                                                |
|----------------------------|------------------------------------------------|
| <b>Quantity</b>            | 250 µg                                         |
| <b>Volume</b>              | 100 µl                                         |
| <b>Form</b>                | Antigenic Blocking Peptide                     |
| <b>Immunoglobulin</b>      | IgG                                            |
| <b>Concentration</b>       | 0.5-1.5 µg/µl in antibody stabilization buffer |
| <b>Purification Method</b> | Affinity Purified                              |
| <b>Clonality</b>           | Polyclonal                                     |
| <b>Storage</b>             | -20°C for long term storage.                   |

### Application Protocol

|                          |                 |
|--------------------------|-----------------|
| <b>Immunodepletion</b>   | Assay dependent |
| <b>Immunocompetition</b> | Assay dependent |
